THIS IS THE INCOMPLETE HISTORY of 1983.
no one knows the whole story but like all stories
this one starts at (you guessed it)

THE BEGINNING 1ST PER.

FOR MOST OF US FIRST PERIOD MEANS CATCHING UP ON
LAST NIGHT'S HOMEWORK AS ANNETTE SERINO ABOVE.↑
IF YOU GET TO THE DOWNSTAIRS COMPUTER ROOM
EARLY ENOUGH, YOU CAN A GAME OF PAC MAN
LIKE DAN INGRAHAM IS DOING. ON HIS
LEFT, LISA TOMIK JUST RELAXES. NEXT TO
HER, MR. HOLCOMB EXPLAINS SOME OF
THE TOUGHER PROBLEMS FROM LAST NIGHT'S
HOMEWORK. BELOW HIM, A FURIOUS SESSION OF
RESEARCH IS BEING CONDUCTED IN THE LIBRARY
BY JOHN LO.... TO THE RIGHT, THE ROWDIES
OF THE UPSTAIRS CARPETED AREA POSE FOR
A PORTRAIT. AND OVER THERE, A BEFORE CLASS
STUDY SESSION STARRING (LEFT TO RIGHT) -
LIBBY VASICEK, JOHN SILVESTER, WENDY WRUBLESKI
2nd and TONY BIRCHARD, all juniors.

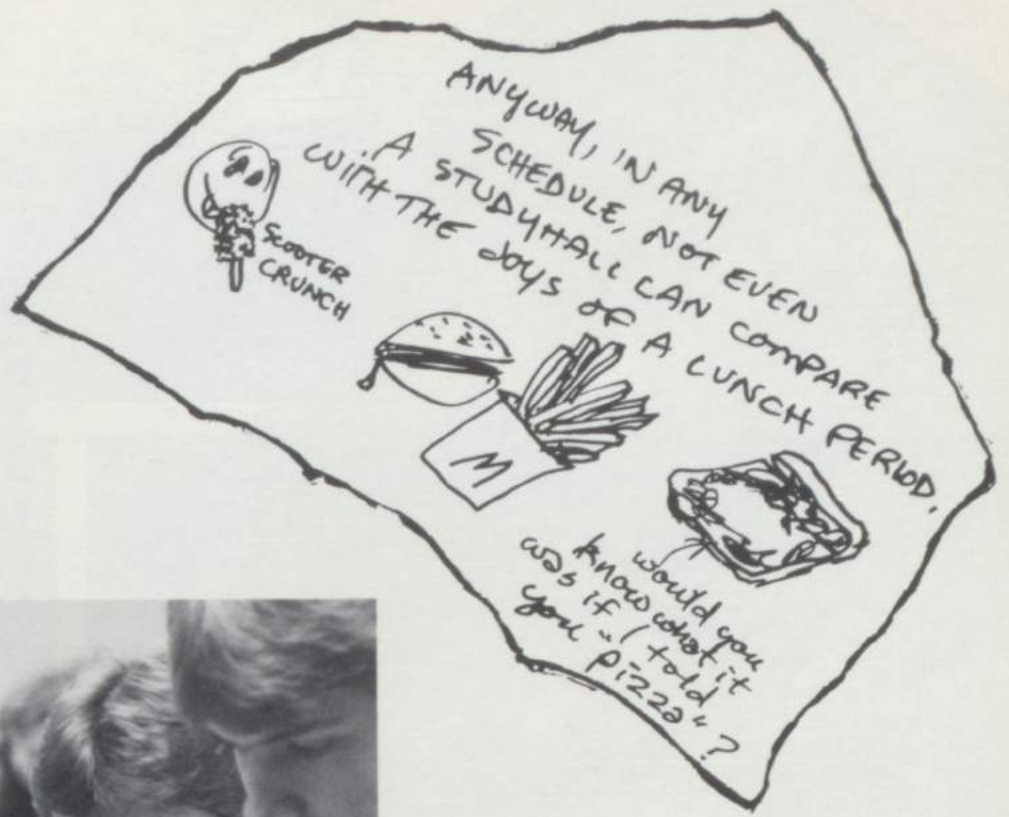

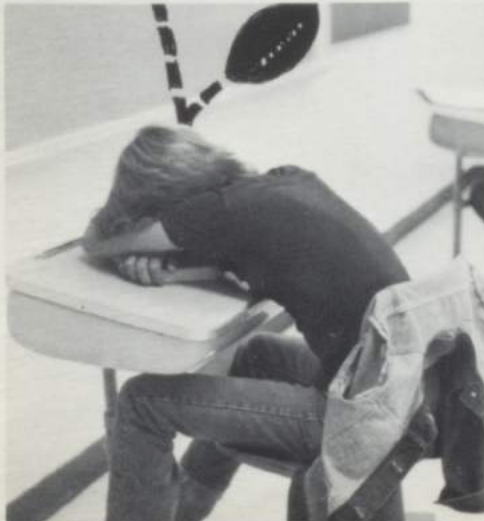

THESE NEXT FEW PAGES ARE
DEDICATED TO THE MAN WHO INVENTED THE
LUNCH PERIOD. HIS GENIUS ALLOWS US TO
ENJOY THAT LONG AWAITED TIME OF DAY
WHEN WE ALL RELAX AND EAT, ALTHOUGH
SOME OF US EXCELL IN BOTH, THERE
ARE THOSE WHO DON'T TOTALLY RELAX;
THEY HAVE NEXT PERIOD'S HOMEWORK ON
THE SIDE (WRITE, MUNCH, WRITE, SLURP, ETC.).
THERE ARE ALSO THOSE WHO DON'T TAKE
EATING SERIOUSLY; THEY BRING A BAG
WITH ONE APPLE AND THREE SUNFLOWER
SEEDS. SOMETIMES THESE PEOPLE
EVEN VENTURE TO BUY SOME SKIM MILK.
THERE ACTUALLY EXIST KIDS WHO
DON'T HAVE A LUNCH PER.
(GASP).

This school is especially rich in opportunities for students to learn skills outside the spheres of Readin', Ritin', and Rithmatic. WE CAN RIGHTFULLY BOAST ABOUT OUR OUTSTANDING SPORT TEAMS & OUR NUMEROUS AND PROFESSIONAL-CLASS MUSICAL GROUPS. THE VARIOUS ACTIVE CLUBS AND THE IN-SCHOOL COURSES, WHICH INCLUDE THE INDUSTRIAL AND FINE ARTS AS WELL AS AREAS SUCH AS COMPUTERS, BUSINESS, AND PHYSICAL EDUCATION, ADD AS MUCH DEPTH TO OUR EDUCATION AS ENJOYMENT TO OUR HIGH SCHOOL YEARS.

Dear
Hi! How's it going? I'm in study hall now - boring as usual. I was going down to the library but my moma washed my card with my new pair of jeans and I haven't seen it since.

Are you going to the game Friday? Where are you going after? Tony's - or are there any parties? I was so suprised when "you know who" called me last night! I couldn't believe it! He asked me out for Saturday Night. What am I going to wear?! Do you think I could borrow that blue blouse ~~with~~ with the ruffles down the front? Thanks! (If you said yes!)

Well - I should be reading 20 pgs. of Chemistry - I have it next period. (I'm so out of it today) Gotta go!
The period's running short!

Bye!

P.S. Sorry so Sloppy

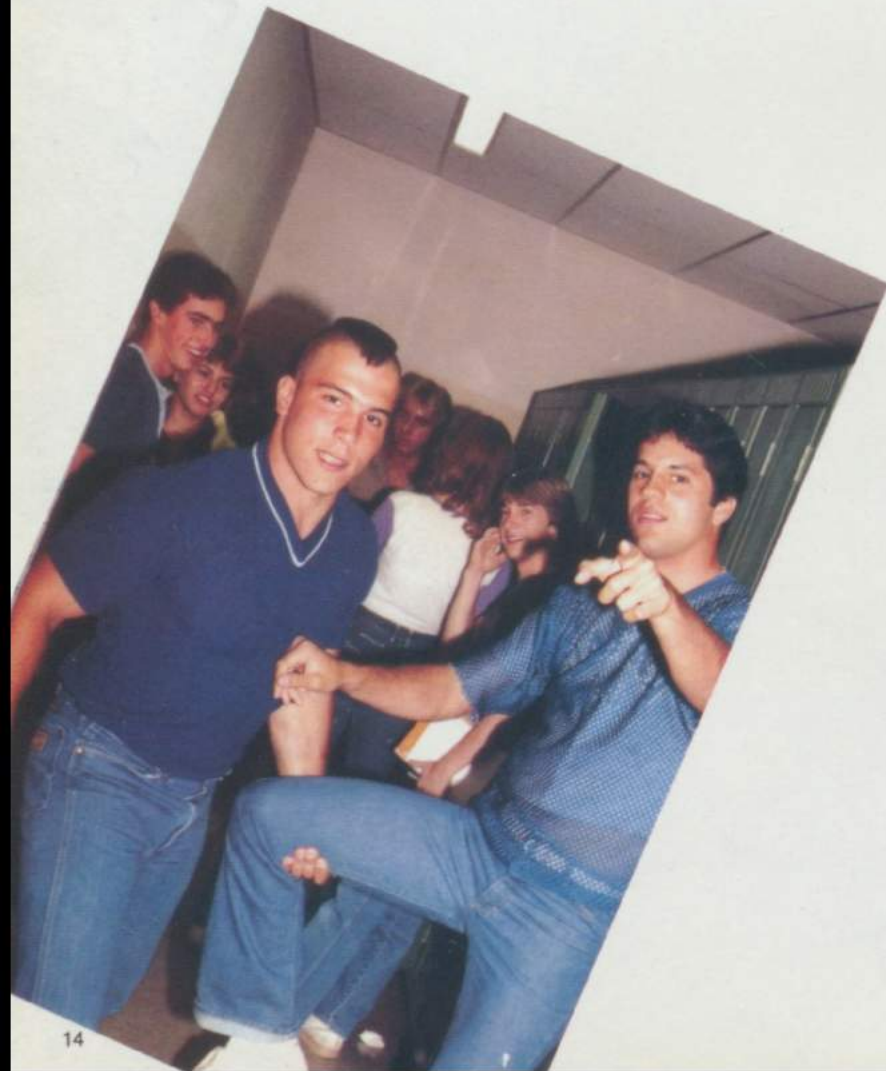

P.P.S Call me tonight after dinner
Talk to you then.

P.P.S. Boy, is your locker a mess!

maybe
put some of this
year's best notes
here where you
won't lose 'em.

PERSONAL DIARY

There's gotta be somethin' you'll want to
remember from this year. Paste it,
staple it, write it or tape it on this
page. It's all yours.

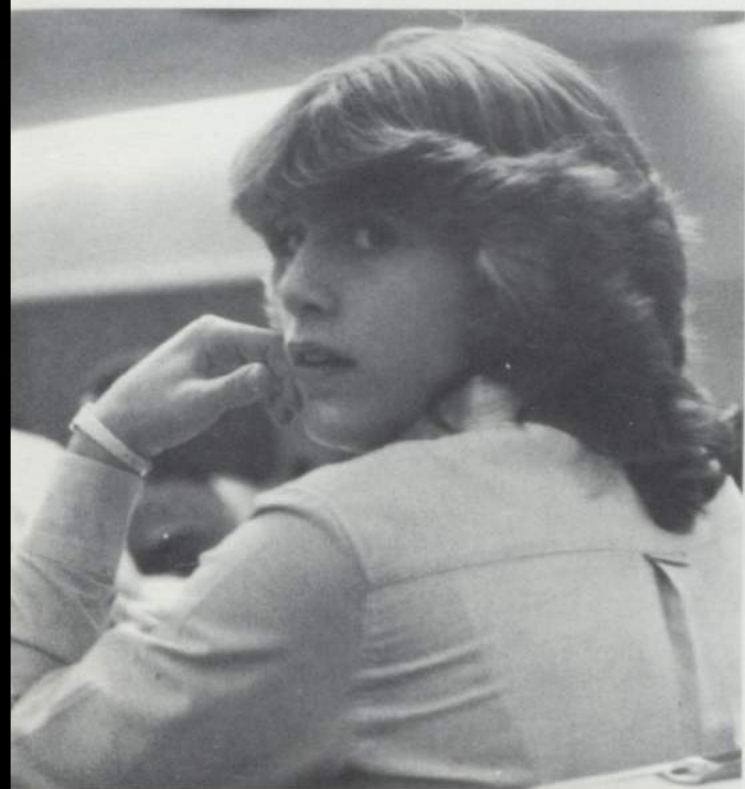

NOTICE HOW THE PICTURES ON THIS PAGE HAVE HARDLY ANYTHING IN COMMON WITH EACH OTHER. THE PAGES BEFORE HAD A CERTAIN THEME ON EACH SPREAD LIKE LUNCH OR ACTIVITIES, BUT THESE ARE VIRTUALLY UNRELATED

WE COME INTO THIS HIGH SCHOOL VIRTUALLY UNRELATED. IN THE FOUR YEARS HERE WE BECOME THE BEST OF FRIENDS ☺ AND SOMETIMES THE WORST OF ENEMIES. ☹ WHATEVER HAPPENS IN THESE YEARS, OUR FRIENDS AND EXPERIENCES DO MORE TO CHANGE OUR LIVES THAN PROBABLY ANY OTHER TIME BEFORE, FROM DAY ONE OF OUR FRESHMAN YEAR TO THE GRADUATION PARTIES FOLLOWING COMMENCEMENT WE BECOME MORE AND MORE LIKE FAMILY WITH THOSE WE HANG AROUND. ALL OF US HERE ARE TIED. WE REACH GRADUATION AND ARE EXPECTED TO SAY "GOODBYE" TO THE EASY TIMES AT U.E. HOWEVER, LIKE RUBBERBANDS THOSE MEMORIES SNAP BACK AND WE'LL SMILE.

THIS PAGE IS CALLED A LAYOUT. THE PICTURES ARE PLACED SO THEY ARE IN HARMONY AND LOOK GOOD. LIKE OUR HIGH SCHOOL, THIS IS A GOOD LAYOUT.

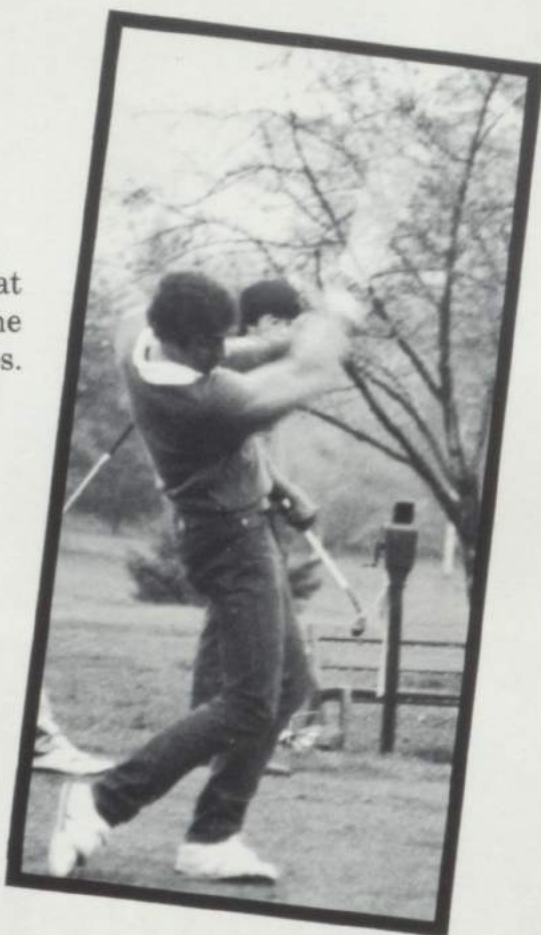

In the foreground, Judy Perkins, and in the background, the infamous Amit Dave work on their Mock Trial material.

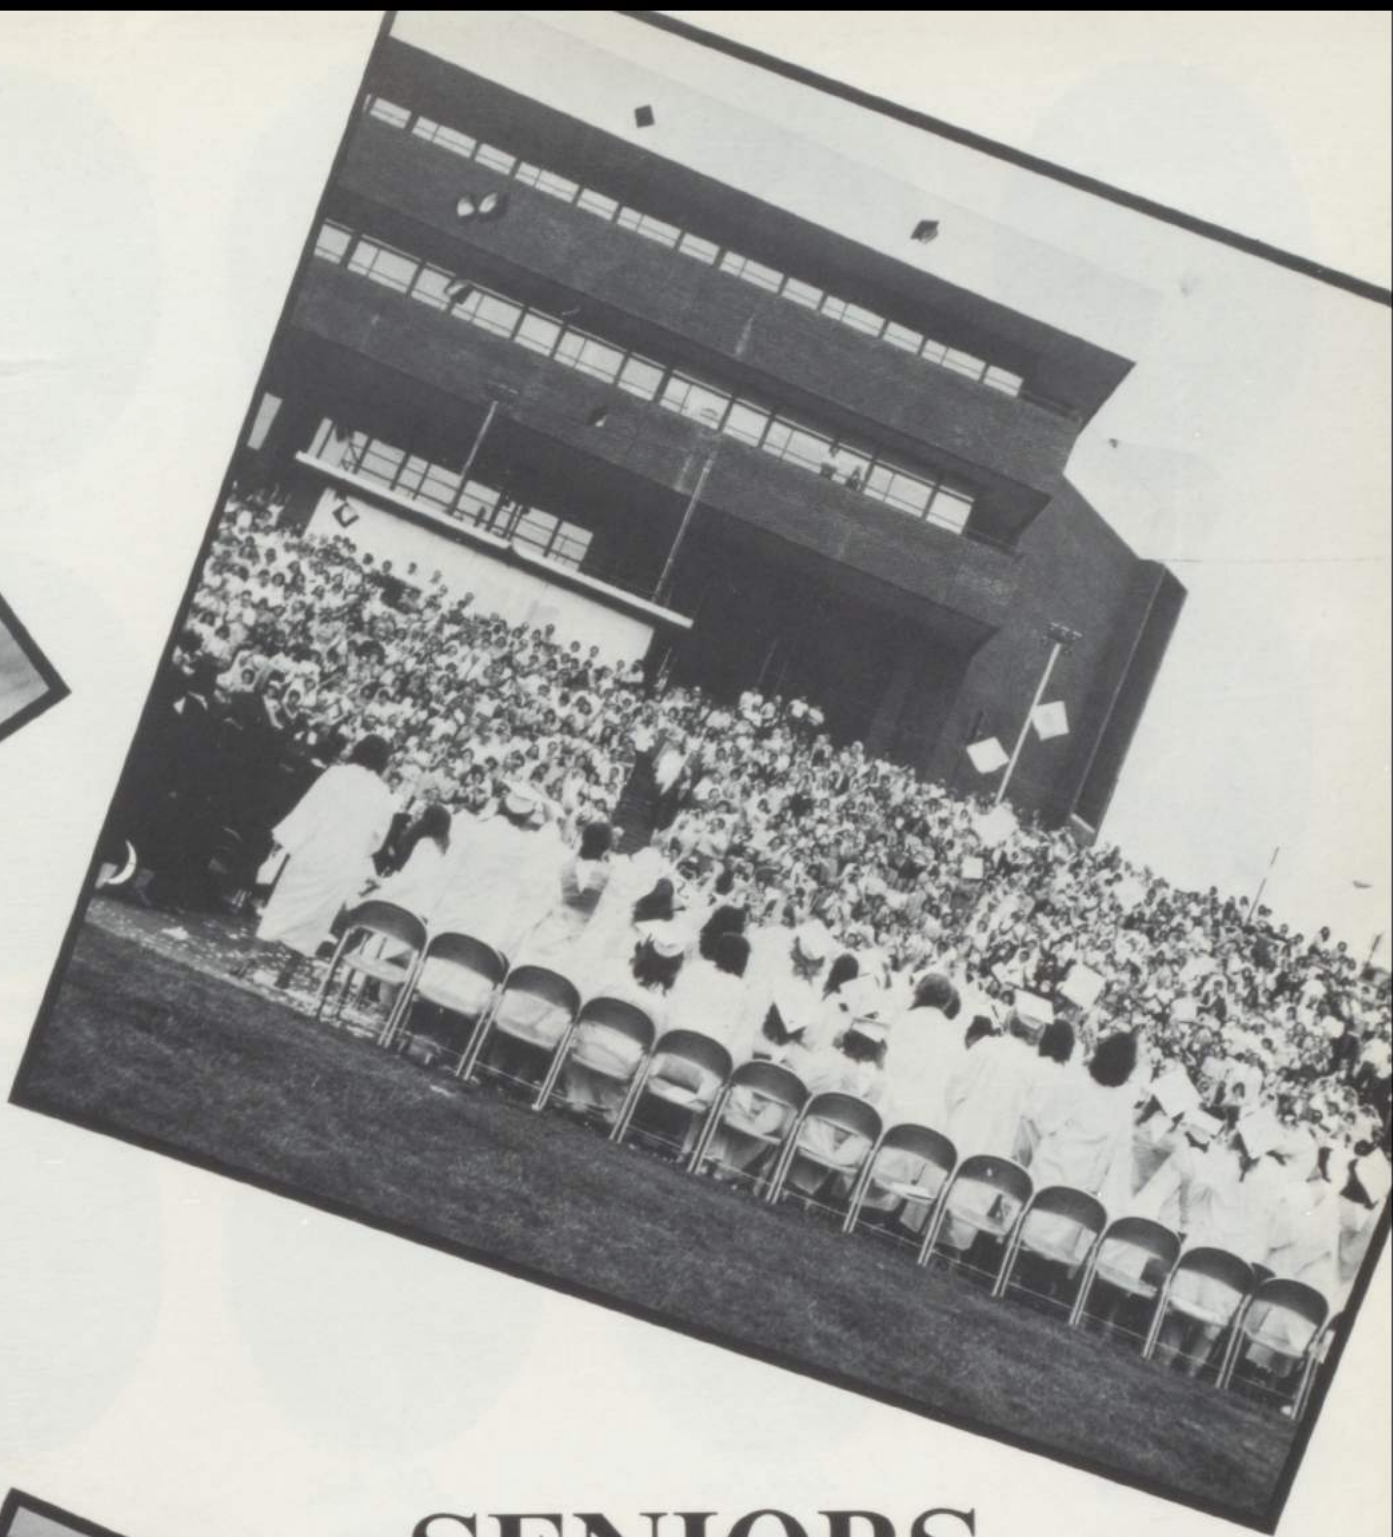

Ed Santelli tees off at EN-JOI during one of the golf team's victories.

Seniors live for weekends.

NATIONAL MERIT SCHOLARSHIP

Since 1955 the National Merit Scholarship Program has been conducting scholarship competitions which over the past 26 years have resulted in the awarding of about \$193 million in Merit Scholarships to students of high academic calibre. The number of Merit Scholarships available in a particular year is determined by grants from corporations, foundations, business organizations, and colleges and universities. All finalists will win four-year Merit Scholarships.

Every student qualifying as a finalist, as well as those commended by the Merit Scholarship Program, has good reason to be proud of this accomplishment which is evidence of his outstanding academic ability.

Mr. Wayne Harvey is again the advisor for the Mock Trial team, a group of students which prepares a certain hypothetical legal case with the help and coaching of Richard Lewis, an attorney with Leasure, Gow, and Rizzuto. Part of the team prepares the defense and the other presents the prosecution's case. The team is then taken to competition on the local, regional, and state levels. For instance, our defense will compete with Binghamton's prosecution or the other way around. All final decisions are made by a real judge and the finals are held in the State Supreme Court in Albany.

The case being prepared this year is centered around the issue of reverse discrimination. A male nurse, Vincent Taylor, was hired by a female nursing director, now deceased. The new director, Dorothy Dillon, fired Mr. Taylor on the grounds of "negligence," claiming that it was Taylor's fault that a Mrs. Andover, a prime benefactor to the hospital, while in the hospital, fell out of bed, hit her head, and died. Taylor is suing the hospital on the grounds of sexual discrimination. One of the most important pieces of evidence that the plaintiff will use is a memo which was addressed to Ms. Dillon connecting the male nurse and Mrs. Andover's will.

At the time, the "lawyers" and "witnesses" have not been chosen, but Mr. Harvey says that there are many veterans in the program this year and that the hopes are high for a championship team to emerge from Union-Endicott this year. One certainly can't object to that.

Observatory Trip

During the month of October, ninth grade science students, along with science teacher Mr. Iacovazzi, went on a field trip. Their destination, Kopernik Observatory in the Vestal hills. The students spent an enjoyable day listening to lectures and watching films. The students' teachers, Mr. Sartin, the head of the Observatory, and a young SUNY student, taught the students interesting things about lasers, stars, solar energy, and the sun. There were also demonstrations of telescopes.

The trip was very successful and well enjoyed by all. We hope that next year's ninth graders will enjoy it as well.

Computer Room

The computer room, otherwise known as "the Core," is a small room adjoining the library. It's a place where senior computer science students and ninth graders in the enriched program can work on their assignments quietly. The room contains six Apple computers with printers and CRT screens, four of which are in color. The program is open only to seniors and certain ninth graders because there are not enough computers; they hope to have doubled their amount by next year. All seniors are accepted into the program (if they sign up) since they'll be leaving next year. Only ninth grade advanced students who qualify can use the computer room. When the students go to "the Core," they are informed it's no fun and games. They have assignments to do, and then if they have permission, they can play games on the computers. The games must be original and designed by the students themselves. If you like to work with computers and you qualify, give "the Core" a looking into.

VOYAGE EN FRANCE EN ESPAGNA

April of last year a group of 33, students, parents, and teachers, went on an overseas trip to Paris, France and Madrid, Spain.

During their time in Madrid the group saw many interesting things. Such as El Escorial, the Valley of the Fallen, Toledo (one of Spain's older cities) and a bull fight. While in Paris they saw the sights of places such as the Eiffel Tower, the Arc de Triomphe and Versailles.

During their free time the people could shop or do just about anything they chose. In Paris one group chose to go to a cabaret (French nightclub), while another group chose to go to a discotheque.

So as you can see the trip was not all sightseeing but also filled with time for people to do whatever they wanted.

The trip was well enjoyed and we hope that this year's trip to Paris and Switzerland was enjoyed as well.

MICROPROCESSORS ARE AMONG NEWEST CHANGES

This year showed great progress for the Business department. They have made a few changes in their department, all of which were for the better.

Their program, Intro to Business, was changed to Business Dynamics. This new course is taught in six modules, one of which is Computer Literature. This change took place early in the second semester of this year, and lasted approximately six to eight weeks.

The Department was also lucky to add six new VIC-20 Computers to their program. In the future they hope to add more namebrand computers, such as the IBM personnel.

Students and teachers alike have looked and enjoyed the changes in their program.

If you have the right qualifications, try out the Business Dynamics course. You may like what you see.

... MORE ON COMPUTERS

Chris Hankey works on assignment #3 in the CORE during his lunch period. Assignment #3 had students poking around in order to complete their program in time to receive early points.

TIME Magazine named "the computer" as "MAN OF THE YEAR" to the surprise of many. However, the shock was not as intense in the core of U-E's Computer Science program. Since computers are becoming more and more essential to the business world and indeed in all facets of life, offering the course has created a bumper crop of students who are wild about their silicon counterparts. The enrollment in this course, which is being taught by Mrs. Padykula and Mrs. Lane, has increased from 120 last year to 150 this year. This jump is almost directly a result of the purchase of four Apple II's by the school. There are usually 10 people waiting to get on the terminals throughout the day and this has prompted the school to consider purchasing even more computers. And so, if the trend continues, there will soon be an entire Computer Department at U-E. There's a good chance, also, that the "department" might be headed by floppy diskettes and keyboards, but let's wait and see.

Myra Van Inwegen, in the foreground, works on another of her ingenious homemade Apple II games. Jason Watts tries to RUN his program without getting beeped and told that there is a SYNTAX ERROR in one of his lines.

EXCUSES, EXCUSES . . .

When asked to recall some of 1983's most memorable excuses the secretaries mentioned these:
 "His car isn't working today so he couldn't come down."

Said one student, "Well, you see, my parents are out of town and we had this party at the house so I had trouble getting out of bed at six when I only went to bed at five."

"It was 'Joe's' birthday yesterday so we thought we'd do something during the day."

Last night's Donkey Basketball Game proved how the experienced faculty could really make baskets. The Mock Trial Team won their first trial today in Binghamton. Morning track practices started this week awakening some students to the fact that 6 a.m. really exists. Rock giants Tom Petty and the Heartbreakers will be in town. Some Calculus homework was done by all . . . Lionel Richie's "You Are" is the number 1 pop single. Tickets are on sale for the spectator bus going up to the Regional Championship Basketball game on Saturday night in Syracuse . . . "Mame" cast hasn't lost their heads yet with the opening night only 1 week away. MTV (Music Television) is cited for contributing to the decline of record sales . . . Baseball practices also started this week . . . Spring is almost here . . . the temperature at 1:32 a.m. is 38 degrees.

An amazing feat is captured on film as Francine Spinelli makes her bed while still asleep. Her mother thought just making the bed was a miracle.

STUDENT LIFE

Bernie Korosec shovels his driveway after the second of two weekend snow storms. The storm forced the mayor to announce that anyone caught on the roads would be arrested. However, as stated sadly above, the storms came on Friday nights and did not cause cancellation of school Monday.

6:50 A.M.

MISSION: Search and find the following in the early morning hours. Observe, photograph, and report.

I was handed this in a crowded elevator along with a portfolio on each of "the following".

6:50 a.m. Arrived at the hideout of Miss Francine Spinelli, Senior Extraordinaire, and found the door unlocked. I grew suspicious. I was even more wary when, upon opening the door, I found the very Fran I was seeking standing there in her "footsy" pajamas. Her mother, obviously awakened by my entry and wondering what was amiss, peeked out of one of the hall doors. Anxious to see what would happen next, I froze. Then, slyly, almost maliciously, Francine whispered, "Don't worry. I *know* why he's here." Astonished at her insight, I followed Francine into the bathroom where, again she surprised me by asking whether I would like to see her brush her teeth. Thrown by her question, I could only nod.

I loaded my camera and waited for what seemed an eternity while she squeezed some toothpaste on her toothbrush, put the cap on her tube and brought the brush to her mouth. What followed was incredible. She brushed her teeth.

When she was finished she asked whether I wanted to see her bedroom and then made sure I had my eyes blindfolded because "it was a mess". On entering I could see what she was trying to tell me. She then proceeded to make the bed. It was made properly.

Now, we returned to the bathroom. The tension was overwhelming as she brought out a small white box from the first drawer of the cabinet. I went for my camera. She gave me a smile and as she opened the mysterious box . . . I could tell there was nothing sinister lying within. It was her eyes that she was putting on as she bent over the sink. She finished putting them in and turned to me in tears. I knew that the time had come for me to leave.

As I got into my car I saw her close the door.

7:10 a.m. Arrived at the house of the notorious Mike Portland, known among his peers as "El Squared". As I walked around the house trying to find an entrance, (this was obviously a tougher case than Spinelli), I paused underneath a first story window from which issued the following noises: (continued on page 82)

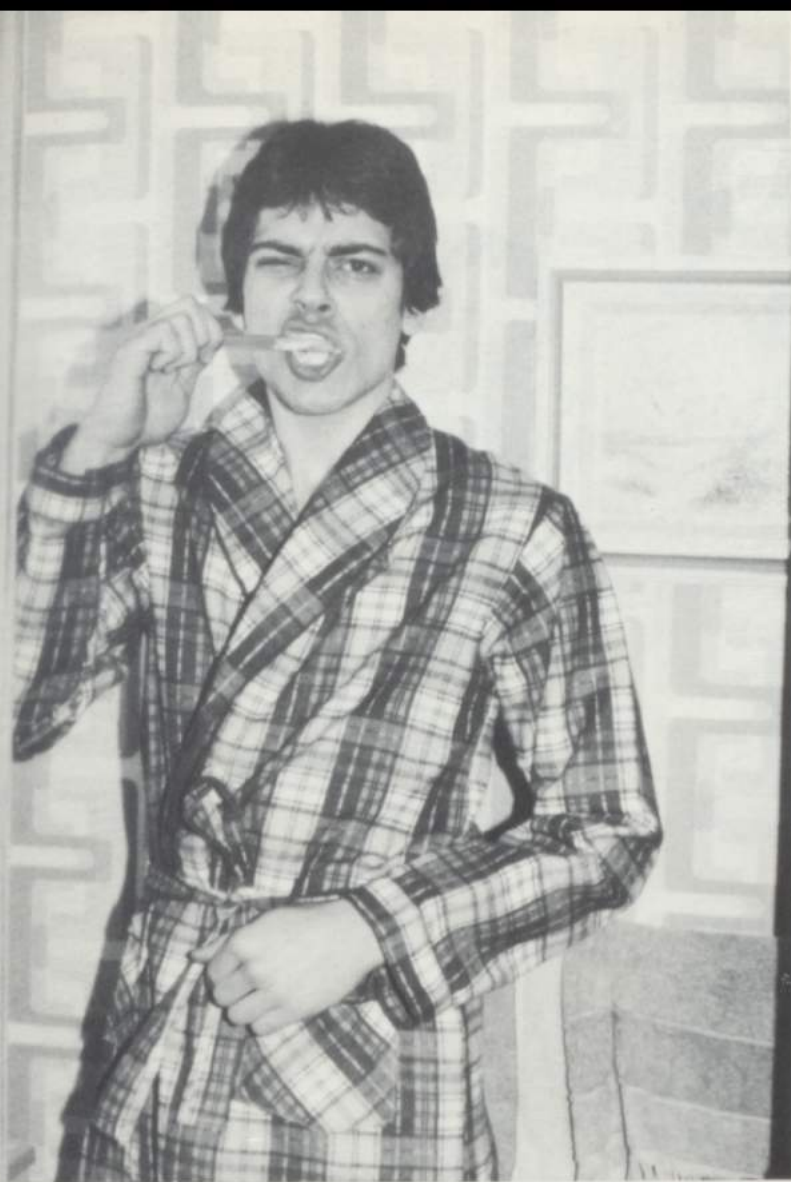

THE CONTINUING SAGA

... from which issued the following noises:
BUZZZZZZZ! UGH! mmbmblmmmb
BANG* (at this point the buzzing stopped) ...
8 O'CLOCK!!! OH (*obscurity**)!!! I'm LATE!!
This voice I recognized from a file tape as that of
El Squared. Quickly, I made my way to the next
window with my camera, ready for anything. As
I peered in, I snapped a photo of Mike bending
over and turning on his receiver. There was a
small moment of ecstasy in his expression as
THE WHO's "Who are you?" filled the air. I
watched him as he, too, brought out a white box
identical to the one that Fran had. He, too, went
through the same ritual of putting in his
eyeballs. No, wait! They were not eyeballs, but
what seemed to be ... nah! they were his eyes
after all. I was sure of this when upon entering
his house through an open chimney, I followed
Mike into his bathroom. There I saw him
brushing his teeth in a manner similar to that of
Francine, Senior Extraordinaire. He must have
felt that he was being watched (as all people who
are being watched feel) and turned to reveal a
hideous face. He obviously had not put in his
other eye, so in disgust, I left. But, as I passed
Mike's bedroom I heard something move in the
darkness. Being the agent that I am, I ran.
Fortunately, out of some extremely good luck,
my camera and flash went off and I got a picture
of the monster as it stirred in its lair. Later, I
discovered that it was actually Mike's brother,
Jeff Portland. Time was running out as I again
climbed into my car, making sure to check the
back to see if there were any children playing,
and sped off to my next destination ...

7:15 a.m. Arrived at the home of David Hrcyk,
Arthur Sophomore's older cousin's second
brother; all was quiet outside. The front door
was unlocked and so I had almost no trouble
opening it. Inside everyone looked as though he
were about to leave. They were all busy getting
ready thus I was not noticed. Seeing that I was
running out of time, I quickly dashed to where
Dave was seated reading the morning paper and
immediately dove behind the counter to await
his next move. He got up and began packing his
U-E book bag. I had to get at least one more
shot of him so I stepped out from behind the
counter and snapped what was there to shoot
and ran from the house, probably leaving the
family baffled as to what had so stealthily
invaded their home that morning.

7:34 a.m. Arrived at my home, exhausted. I
looked at the clock and yelled, "7:34!! OH
(*obscurity**)!!! I'M LATE!!!"

Romances such as the one in the picture below can occur at any time, in any place. These kinds of relationships usually end in tears for one party or the other.

IS "GOING OUT" GOING OUT?

When asked "Do you think going steady is going out of style?" 90% of the people polled seemed to have misunderstood the question. However, because of the lack of any other material on the topic the answers of some will be printed.

Dave Zizak: "It's better to go out with someone from another school. You can do anything you want in school and then still have the relationship with the other girl."

Sue Boyer: "People go out for security. You know you have a date that weekend."

"Why is it that when a guy goes out with a different girl every weekend he's a 'stud' but when a girl goes out with a different guy every weekend they call her 'loose.'"

"Guys in this school won't ask a girl out unless they are 100% the girl will say 'YES.'"

Some seem to know what was being asked:

Katha Fauty said: "No one wants to be tied down."

Some students said they'd like to be tied down . . . for others,

"it becomes the same ol' grind."

"Why is it you always find the right person at the END of the year?" Linnea Calztoni who has been going out with Chris Ogozaly for almost 3 years said, "Everyone needs someone special to brighten up their lives, someone who'll always be there."

Maurice,

Don't worry. When all of them graduate and all 8 or 10 of us upcoming juniors are still in Crestview, we're going to party even more! There might be only a few of us but we'll be *ROWDIE!!!* Still remember the Dance? Have fun practicing this summer.

If I don't get to your Yearbook in June, I did want to
say this: I both love and detest you. You are
everything I have tried to become and yet some
things I know will never be me. I have learned
from you and you from me . . . I hope. There's no

LOCAL HEADLINES

This was a year marked by unprecedented flukes and changes in the local weather. There were warm spells and cold spells, not to mention everything in between. Consider our Christmas vacation. No one needed to go to Florida or the Tropics. Here, at 8:30 p.m. on December 28, it was an incredible 68 degrees.

During the last week of February and the first couple weeks of March the temperature climbed daily to 50 degrees.

We had two snowstorms which dumped a total of over 40 inches of snow on Broome County. Unfortunately, these ruined nothing but our own weekends; we had no snow days this year.

This has certainly been a year of diversified weather.

It was late in 1982 and those who live in the Park Manor area of Endwell had come to know fear. There was an arsonist, a very stealthy fire-bug, who had begun to haunt the region.

Before someone was arrested, hundreds of citizens would become concerned and scared, fire watches and neighborhood patrols would be organized, and tens of thousands of dollars in damages would be incurred.

It used to be a fact that, as kids, we never really had to worry about such things as our nation's economy. Now we are older, some will even be graduating this year. And we must all come to face the cold hard facts of reality.

This past year the Savin Corporation in Johnson City laid off three hundred workers.

Our own Endicott-Johnson laid off fifty of its workers.

This all comes at a time of tremendous stock market activity. The American Economy seems to be faltering; the value of a dollar is decreasing. The omens for the future are not good.

Later, in February, Endicott was to encounter but another problem, this too dealing with pollution. A local reservoir known as Ranney Well was apparently contaminated with a compound called Vinyl Chloride. And Vinyl Chloride was a recognized carcinogen.

Laboratory reports put the contaminant level at 3 parts per billion *or maybe* 8 parts per billion. There were conflicting reports until the state explained that the contaminant level was actually 2 parts per billion. This was below the state maximum of 5 parts per billion.

Tests would continue.

More pollution. This year marked the second anniversary of the accidental contamination of the Binghamton State Office Building. On February fifth 1981, a transformer in the building's basement erupted, spreading poisonous PCB'S throughout.

The damage done amounts to more than twice the cost of the building, which is now being cleaned by a special team of scientists, technicians, and medical engineers. These people have been working for more than a year and a half.

To put it simply, the New York State legislature raised the legal drinking age. What was once 18 is now 19. An extra year was added to help in the prevention of alcohol-related auto fatalities.

In what was probably the most exciting game in local sports this year, our varsity basketball team beat Liverpool in TRIPLE OVERTIME to win the Central Conference regional championship with a score of 54-53. This allowed them to advance to the regional semi-finals.

At the time this page was being sent in it could be said that there is no hope for a Snow Day this year. Better luck next year Ol' Man Winter.

Our top story tonight . . . a skunk was discovered in a lifeless condition on the second floor, next to the cafeteria. How it got there I'll never know.

These young men have worn the ORANGE and BLACK with DISTINCTION all over the state over the past few years, even in the CARRIER DOME in Syracuse last year. They have performed against the VERY BEST, at times vs. schools twice their size. They have always relished, rather than shrunk from, this type of CHALLENGE and have always represented us in the most EXEMPLARY MANNER of DIGNITY, HUMILITY, PRIDE, as well as ACHIEVEMENT. We are extremely PROUD of them! Actually, they have achieved our most important goal of winning the championship, especially since this was easily our most challenging schedule ever. We do not look upon the season ending loss in the Section IV Bowl game to a fine J.C. team as a failure, but rather as an EXPERIENCE, from which to LEARN, and as a FOUNDATION, from which to BUILD!

J.V. FOOTBALL

This year's J.V. Football record was 8-0. They were the league champions.

The U-E Junior Varsity football team sails into the Nov. 13 season ending game at Vestal hoping to extend their winning streak to 13 games. U-E has not been beaten since September of 1981. They are currently 7-0 with the one remaining game at Vestal. They have outscored their opponents 222 to 41 in seven games.

Defense is once again the mark of the 1982 Tiger Cubs. Defensive Coordinator Wayne Tidik has molded together a very solid defense anchored up front by Rob Sander, Jimi Jones, Tim Northrup, Frank Cacciatore, and Paul Veruto. This solid line is backed by a corps of linebackers including Scott Weybrecht, Tom Melville, John Fiacco, Dave Bridge and Pat Hillis. The defensive secondary is patrolled by Barry Gould, Lonnie Enders, Bob Edwards, and Jeff Balmer. These boys have posted three shutouts and have yielded on three T.D.s.

The offensive has the luxury of many good people. Many boys have seen action this year. We have used three boys at quarterback, Bob Edwards, Rick Hover, and Mark Laposky. We have used six running backs, including Pat Hillis, Chris Mayes, Rick Markert, Lonnie Enders, Jeff Balmer, and Barry Gould. The line has opened big holes for the backs all year long. We have used a lot of people on the offensive line. The ends are Jim Jones, Rob Bebee and Jerry Smith; the tackles are Mike Crounse, Tim Northrup and Tony Mosco. The centers are John Fiacco and Scott Hemenway, and the guards are Dave Bridge, Paul Veruto and Paco Fitzgerald. This season has been one of challenge and improvement. These boys have great potential for the next two years, but they must put in some long hours if they want to improve.

A special note of thanks is appropriate here from Wayne and Mike to a person who has donated both time and services to make the J.V. program a little classier. A big thank you to Shorty Bowen from the coaches and players.

This year we averaged more shots per game than any previous season. We scored more goals than ever, and least amount scored against us. We ended in fourth place in the STAC Decision standing.

Coach Materese

Top Left: Coming back from another rough game.

Center Left: "Another exciting pep talk."

Center Right: "Nice position."

Bottom Left: "Don't let it get away."

This year's most valuable players were Chris Lewis and Shaun Kerins. Chris scored 13 goals and had seven assists this year. Cool and collected, Chris played to the best of his ability all the time. Shaun's hustle and drive kept the team in competition. He had consistent dedication and sportsmanship.

CO-OP

CO-OP

The CO-OP Program is one that enables students to learn more about the business world. To be eligible for the CO-OP Program a student must have a business background, and have taken one of the following courses: Accounting 2, Shorthand 2, or Office Practices 2. The student must work four hours a day either the morning or afternoon. He receives pay and a maximum of 2 credits per year. The jobs usually come from local businesses such as IBM, Carr Printing, Local lawyers' offices and banks.

When a student tries for the CO-OP Program, he doesn't always make it. This year only half of the students who applied made it. One has to be interviewed by both the business he wants to work for and by the school. One has to save at least half of his earnings (unless parents make a request for a change), and he must have a good attendance and discipline record with the school. Businesses are not going to want a person who is often late or absent. If you would like a taste of the business world, and you think you qualify, look into the CO-OP Program.

Industrial Awareness is a program that provides students with a meaningful learning experience, and it helps them in their future careers. The students in the program come from various backgrounds in school, such as, business arts, college preparatory, and so on. Selection of the students for the program, is based on their working skills. From September until June they are expected to work four hours a day, for five days a week. If they come from a business background, they can receive pay and credits for their job. If they come from a program other than business, they they receive only pay. Usually the students have enough credit when they take on Industrial Awareness that they wouldn't need credit. The jobs for the students can be anything from working in a computer room or cafeteria, to doing clerical jobs for the school administration. The Industrial Awareness program was started to give students exposure to the business world. If you're a junior who would like more to do in your senior year, then look into the Industrial Awareness program.

Amateur Radio Club

The Amateur Radio Club is a group of students who are learning a better way of communicating with various countries. The students are separated into five different categories, all depending on their Federal Communication exam. They take an exam every time they go up a grade.

This year's project for the club is to get a computer and hook it up to a radio, in order to receive and transmit telegraph signals. The students communicate to only about a dozen countries, but they hope to include more. If you are interested in Morse Code and electronic technology, then give the Amateur Radio Club a try.

Kay Club

This club is a community Service club sponsored by the Kiwanis. The main purpose is to work with the young and elderly. This is done by holding Halloween parties and Christmas doings at hospitals and nursing homes. Also volunteers from the club spend time at nursing homes on the weekends. The club is only for women though.

National Honor Society

Directed by: Mrs. Cantrowitz

National Honor Society is a club to which you must apply. Your application to the club is based on a high standard in academics, leadership, community service and character. If you are inducted into the club in June of your Junior year, you must achieve a 92 average, or above. If in January of your senior year you must achieve an 88 average or above. The National Honor Society also works on community and school projects, such as food drives, blood drives, the Sadie Hawkins dances, and many more.

The Reed

The Reed is a literary magazine published bi-annually. It contains the creative writing of students throughout the school. The creative writing can be anything from short stories to poems, anything. You don't have to be on the staff to contribute something. They hope to publish more than two magazines a year, so your contributions would be greatly appreciated.

Chess Club

The chess club is for those who enjoy the game and for the more serious player who wishes to improve his strength. The club meets in room 425 once a week for a match against a competitor. The team has played against African Road, 8-0, Vestal High School, 4-3, and Binghamton High School, 4-3. The team will also play against Seton and Binghamton West Junior, then they will play against each team once again. Later in the year the team will be going to Syracuse for a tournament for individuals and teams.

It is directed by Amit Dave, a student at UE and Pepe Gonzales a student at BCC.

FHA

FHA is an organization for future homemakers of America. There are 20,000 chapters of FHA in the U.S. Their goals are to do things for school, communities and families. This year they have done Thanksgiving centerpieces and contributed \$66 to Special Ed students' May trip for the school. For the community they made 75 Halloween favors for Meals on Wheels and will be making 52 centerpieces in February for Hilltop Retirement Home. For the family, they will be having a dinner in May. Later this year they will be attending the state meeting at Grossinger's Resort and the National Headquarters in Reston, Virginia.

Color Guard

Near the end of the football season every year, students in grades nine through twelve have the chance to join the Color Guard. The students have to be members of either the Tigerettes, Rifle Corps, Flag Corps, or Field Color Guard. Membership requires a strong commitment and a high skill level in dance and equipment handling.

Tigereye

The Tigereye is made up of a staff of about 30 students. They are editors, writers, photographers and all around staff. They dedicate their time to making a better newspaper for us (the school). The main goal of the Tigereye's staff for the year is to try to mirror the entire school and its activities.

They publish the paper five times a year; and as we (the students) have seen, they reached and exceeded their goal of making a fantastic paper.

If you're interested in journalism, photography, or just meeting people, the Tigereye's for you.

The Key club is an organization that benefits the community, church and school.

The UE Key club accomplished just that this year. Under the careful guidance of President Bill Durr and vice-president Tim Macko, the group was successful in all its projects. They had success in their craft and candy sales; they raised money for our special-ed students by way of a bowl-a-thon; and they sold tickets for an All-star circus. But the Key club not only did things for the community; they did things for the school, too.

In October members of the Key club ushered for the teachers on "Meet the Teachers Night," and in November during American Education Week they held a teacher appreciation day. A cake was baked for each department in the school. There is even talk of adopting a family in the future.

If you were not on the Key club this year, you should give it a try next year and join in the fun they have.

GREECE & ITALY TRIP

Over Easter vacation of last year a group of parents, students and teachers alike, went on an overseas excursion to the luxurious lands of Greece and Italy.

The trip consisted of ten exciting and fun-filled days of traveling, touring and shopping. During their time in Rome and Athens the group was lucky to see the Pope at Easter Sunday mass and they saw a Greek floor show at an Athens night club.

Amid their ten days of touring the group saw so many wonderful places that it would be hard to mention them all. But we do know that the trip was well enjoyed and we hope that this year's trip to the Swiss Alps will be enjoyed as well.

Spanish Club

Are you interested in Spanish America? Would you like to learn about the Spanish without having to learn the language? Then the Spanish club is for you. This year the club raised money, by selling Current cards and Gertrude Hawks candy, for their trip to New York City.

While in New York, the group will see Spanish museums, tour Radio City Music Hall, see a Broadway play, and so some individual touring and shopping.

The club is advised by Ms. Edwards, and it is enjoyed by all who are in it. If you are interested in Spanish, then check out the Spanish club.

THE CHORUS

We have two major performing organizations. The High School Chorus is open to anyone who enjoys singing, and there is no audition required to join. We sing music of a lighter nature such as pop hits and of a relatively easy performance level. The U-E Chorale is a somewhat smaller group, and an audition is required to join the group. The music performed is of a more serious nature and of a more difficult performance level. The current membership of our combined groups is over 100 singers.

IN MEMORY OF . . .

Louis Iannone — August 12, 1966
— August 19, 1982.

Louis Iannone, a sixteen year old junior, after a year of struggling, succumbed to cancer on August 19, 1982. A member of the class of 1984, Louie will be remembered by the many friends his happy, easy going ways won for him. Louie will be missed, but he will never be forgotten, for he left behind him the qualities of a true friend.

Charles Shipway — August 1, 1966
— July 1, 1982

Charlie Shipway was truly special. His big smile made him look like he was always enjoying himself. He had a dry sense of humor which made us wonder if he was really kidding. Teachers who worked with him describe him as very intelligent and interested in many different areas in school. Despite his extended absences and long hospital stays, he maintained a positive attitude. If he ever got tired or depressed, he didn't let it show. He left his friends with good memories — my favorite is of a ride on his family's bicycle-built-for-two, and with an unforgettable lesson in courage.

Patti Kelly

Juniors —

Last year the class of 1984 started with a balance of less than \$100.00. They had a "World's Finest Chocolate" sale and also a "candy stick" sale. The top sellers in the chocolate sale were Lisa Jeffery, Vince Fritsch, Tina Evans and Cathy Cerra. We did pretty well this year, ending with a balance of \$2,000. We hope to make most of our money next year so we can concentrate in our senior year on our Senior Prom and banquet.

Sophomores —

The class of 1985 sold "M&M's" and cheese, and started with a balance of \$0, making a profit of \$1200.00 from the "M&M's" sale and \$500.00 from the cheese sale, ending with a total of \$1700. Top sellers in the "M&M's" were Ron Moulton, Charles Mortin and Debbie Klokner. Top sellers in the cheese sale were Brian Dillman, Dawn Gaul and Joe Drum. They did very well last year as freshmen, coming into high school with a balance of zero and ending up with \$1700. They are planning fund-raising activities for next year already. We wish them all the luck for their coming years of high school!

A black and white illustration for 'Burt's of Endicott'. It features four people: a woman on the left in a striped shirt and pants, a man in the center in a striped shirt and pants, a woman on the right in a striped shirt and skirt, and a woman on the far right in a striped shirt and skirt. They are all smiling and looking towards the center. Above them is a large, stylized sun or moon with rays. The text 'THE BEST OF EVERYTHING!' is written across the sun. Below the sun, the text 'The JUNIOR VILLAGE' is written. At the bottom left, it says 'MAIN STORE . . . lower level'. At the bottom right, there is a black box with the text 'BURT'S OF ENDICOTT' in white.
