

Mad Scientists

Children entering **grades 4-6** can join us at **1:30 or 3:00 pm** for an amazing program each week. Learn about science and technology, create art, and have fun. These programs will include books, games, crafts, experiments, and more!

Registration for any or all of these programs is required and will begin on Thursday, June 26th.

July 8th - BioLab

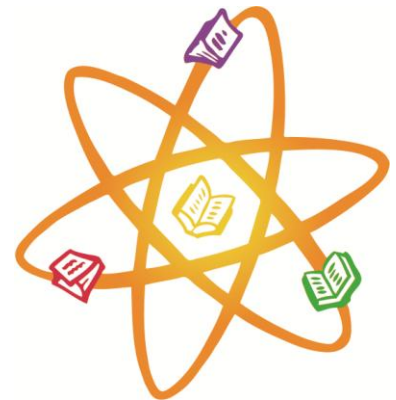

Check out your lungs, heart, brains, and digestive system! Dr. Jen Musa from the SUNY Broome Department of Biology will be here with all kinds of things to help us really look at our amazing bodies!

July 15th - ScienceLab

What makes a blizzard? What can you see in a black light? Do you have a science match? Is Fibonacci fun? Join us to find out the answers to these questions and more!

July 22nd - TechLab

Explore technology with games and activities on the laptops, SmartBoard, and iPads! This week we will meet upstairs in the library's Public Computing Center.

July 29th - ArtLab

There are some really cool ways to mix art and science! Make your own pop-up and scanimation pictures, and experiment with chemistry and crafts to make some amazing creations!

August 5th - FoodLab

Find out what cool stuff you can do with food, figure out how popcorn pops, and magically separate salt and pepper. See if you can win a round of Smeller's Bingo!
