

The Caped Crusaders!

Children entering **grades 4-6** can join us on **Tuesdays @ 1:30 or 3:00 pm** for a super heroic program each week. These programs will include books, games, crafts, technology, and more!

Registration for any or all of these programs is required and will begin on **Thursday, June 25th**.

July 7th - Heroes

Every good story starts with a hero. We'll check out all different kinds of heroes while we spell like a soldier, save the birds, have our own fireman relay, and more!

July 14th - Gadgets

Even heroes with superpowers use gadgets to get them out of a bind. Come upstairs to the Tech Center and use our computers, iPads, and SmartBoard to help you be a hero!

July 21st - Sidekicks

Superheroes need sidekicks. Let's figure out what supports our heroes by coming up with sidekick superpowers, helping our heroes fly, and supporting our own buildings with the engineering challenge!

July 28th - Stories

Create your own superhero story. Using the computers in our Tech Center, you can create illustrated stories or comics featuring your own heroes, villains, and sidekicks. Bring your creativity!

August 4th - Villains

We'll have some fun being and capturing villains. Let's experiment with mythological spider webs, play some villain trivia, try to find your own arch-nemesis, and race to get rid of Kryptonite!
