Class descriptions on back!

July Classes at the GFJ Tech Center

Borrow eBooks and Audiobooks for Free with Overdrive Thursday 7/9 at 10:00

- Borrow ebooks and audiobooks for FREE to read or listen to on your computer, e-reader, smartphone, or music player. In this class learn how to use Overdrive, a free app to download titles, place holds, and manage your account. Bring your own device (with connector cords) or practice on our computers. Please bring your library card and PIN with you! (Contact the library Circulation Desk if you don't know your PIN----757-5350.)

Career Help by Appointment

- Need help with something job-related? A resume? An online Job application? For help with these and/or other career challenges, please call the Tech Center at **757-5359** to set up an appointment with Joanna.

Creating a Goodreads Account Tuesday 7/7 at 6:00

- Goodreads is a social media site that allows you to share and discuss books you've read and books you want to read. Learn how to create a Goodreads account and start building your Goodreads library.

Creating a Simple Website Thursday 7/16 at 4:00 and Monday 7/27 at 6:00

- It's easy to create a simple website for business or for an organization using Google Sites!

Editing and Sharing Digital Photos Wednesday 7/15 at 4:00

- Don't keep your photos trapped on your phone or camera! This introductory class will show you how to easily edit and share your digital photos with free programs and websites.

Gmail Thursday 7/30 at 6:00

- Come set up a Gmail account and learn how to make it work for you!

Organizing Files and Folders Tuesday 7/7 at 2:00

- This workshop covers how to organize files and programs on your computer using folders. We will cover basic principles of organization, how to create and delete folders, and how to create shortcuts.

Playing with Codecademy Tuesday 7/14 at 6:00 and Thursday 7/30 at 2:00

- Codecademy is a fun way to learn computer code. Sign up for an account and start coding! This will be a hands-on class with an introduction to what coding is and what coding can be used for. Time will be spent playing with Codecademy, learning what the site offers, and developing an understanding of basic coding.

Podcasting Questions Answered! Tuesday 7/28 at 6:00

- Want to know more about podcasting? Want some suggestions about great podcasts to listen to? Want to know where to find podcasts? Want to start dabbling in podcasting yourself? Come to this class and have all these questions answered about the growing medium of podcasting.

Recipes for Internet Success! Monday 7/27 at 10:00

- In this workshop we will improve your internet search skills while searching for recipes online. We will explore some of the best online recipe sites and learn how to use their many helpful features.

Simple Excel for Beginners Friday 7/24 at 2:00

- Learn to create, edit, save and print simple spreadsheets and charts with Microsoft Excel and some free alternatives.

Using the iPad/iPhone Camera: Just the Basics Tuesday 7/21 at 10:00 and Wednesday 7/29 at 6:00

- You can take pictures and video directly from your iPhone/iPad using the Camera app. The workshop will cover the "just the basics" of using the Camera app along with viewing and sharing photos. Find out how to use the Photo Booth app to shoot fun photos. Target audience: beginners.

Word Processing for Beginners Thursday, 7/2 at 4:00

- Learn how to create, save and print neat, professional-looking documents with Microsoft Word and some free alternatives.
