NICHOLAS MATERESE

JOSEPH HOSAY

In Memoriam

It is fitting, at the very beginning, that we pause a moment in memory of two of our friends.

"Nick" Materese graduated from U-E in 1957. His personality, athletic prowess, and friendliness endeared him to all. The news of his sudden death last fall saddened all of us.

"Joe" Hosay entered U-E in September, 1956. From the beginning he demonstrated qualities of leadership, scholarship, and school citizenship which made him outstanding. His death during the summer left a void in our school life difficult, if not impossible, to fill.

"Nick" and "Joe" are still a part of our U-E life, for to live in hearts one leaves behind is not to die.

Marcus Aurelius said,
“That which comes after
ever conforms to that which
has come before.” Here at
U-E we have set the pattern.
Now, with some misgivings
(for who can be certain in
this age of uncertainty)
but with hope, ambition, and
confidence in the essential
decency of humanity, we
face the future.

TO THE CLASS OF '58:

A society which looks to the future, lives to see it. History has proven time and time again that those who live only for the moment meet destruction or failure. It is in high school that the basic outline of your future lives has been shaped and planned. As you live to fulfill these plans, you must look ahead to their adjustment and adaptation to meet day by day demands and also to their changing and broadening for the years which lie ahead.

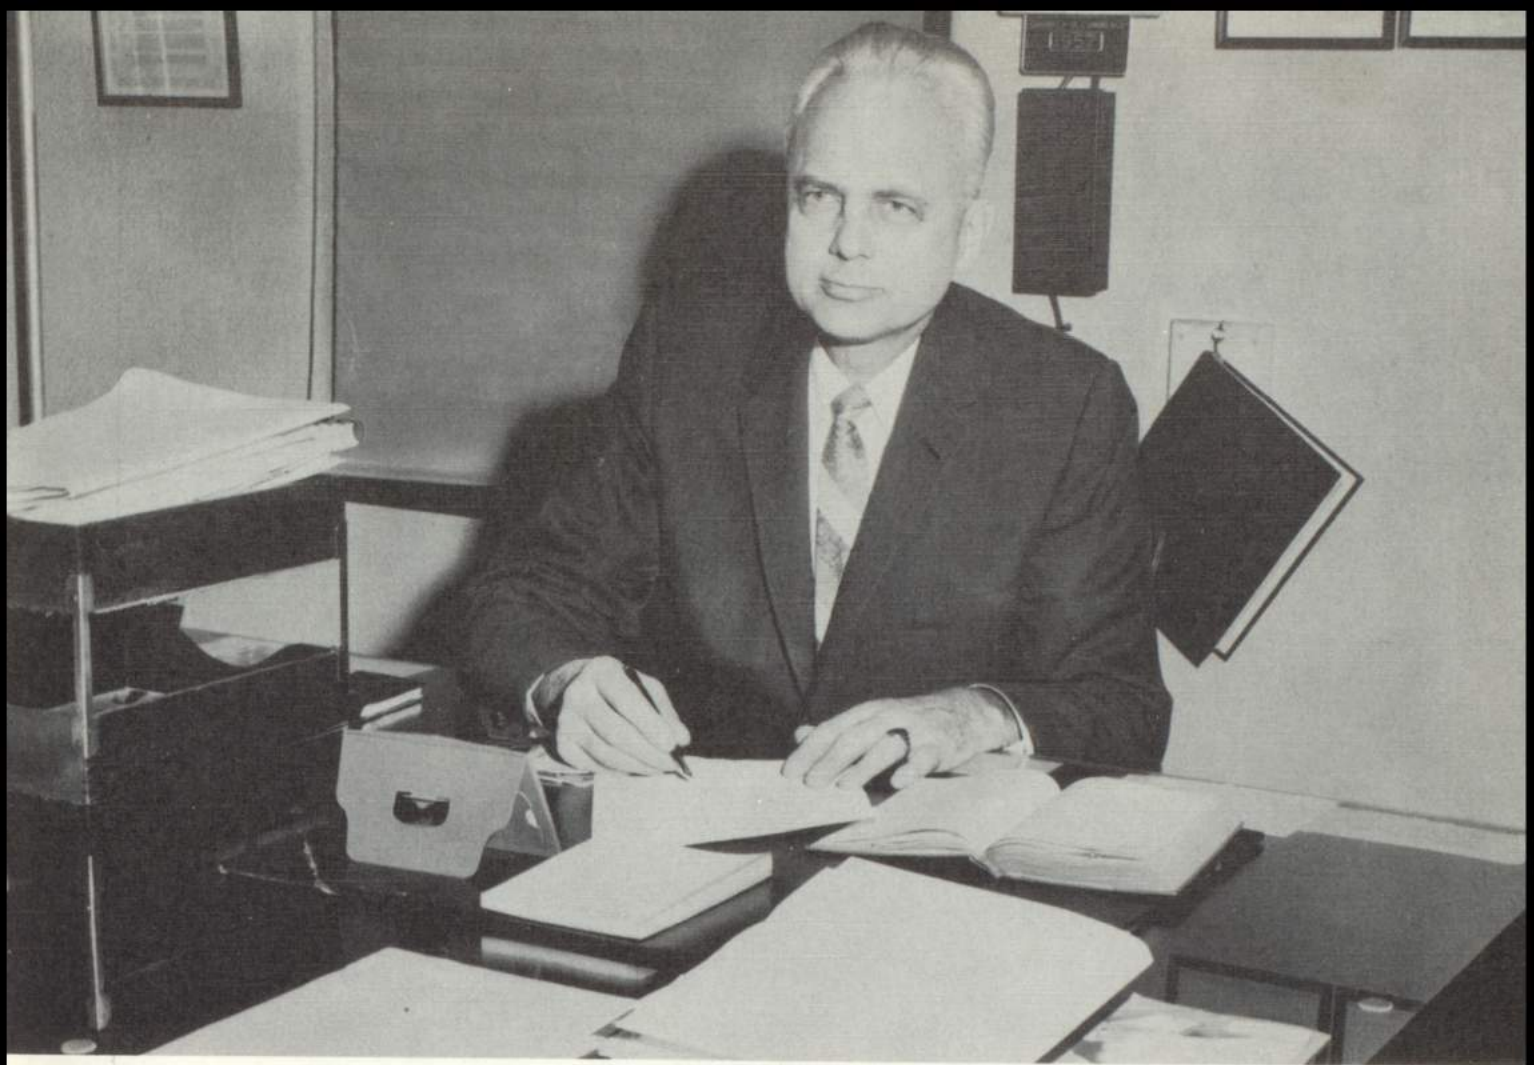

As you culminate these years of study, you have barely opened the door to real study and future planning. Your parents and this community have placed you on the road. You are our future. As you learn more in your chosen careers, you will broaden the horizon of the future for yourselves, your parents, and your country.

President, Board of Education

UNION-ENDICOTT BOARD OF EDUCATION

MESSAGE TO SENIORS

The present and the future are so closely connected that they may be likened to different sides of the same coin. Because today's future is only tomorrow's present, you are actually preparing for tomorrow today. What then should you be doing now to prepare for the days to come? There are many answers to this question, and I have space for only a few suggestions:

1. **BE AMBITIOUS.** Put your undivided energy into every task assigned to you in school and outside of school. Work up to your capacity and try to increase your capacity for work.
2. **BE COURAGEOUS.** Don't be afraid of responsibility. Stand up for what you believe is right, and if you are proven to be wrong, have the courage to admit it. Don't be afraid of a job because it looks difficult; if you have the ability to do it, have the courage to try it.
3. **BE NEIGHBORLY.** Although your generation will try to conquer space, it also ought to try to love your neighbors who live on the earth. Your ability to love and respect people of all races and colors and creeds may be just as important as your ability to make rockets. If you are going to reach for the moon, try it in the field of human relations as well as in the field of science.

Messages From Our Principals

As you, the 1958 Seniors, are graduating from the Union-Endicott High School, we, the faculty, extend to you our sincere felicitations. We trust that during the three years you have spent in senior high school, you now know how to use most successfully the tools which will help you to face the future.

MARY L. PITKIN
Principal

When we consider what has happened in the past one hundred years with the development and expansion of our country, we sometimes wonder if we can continue to change at such a rapid rate.

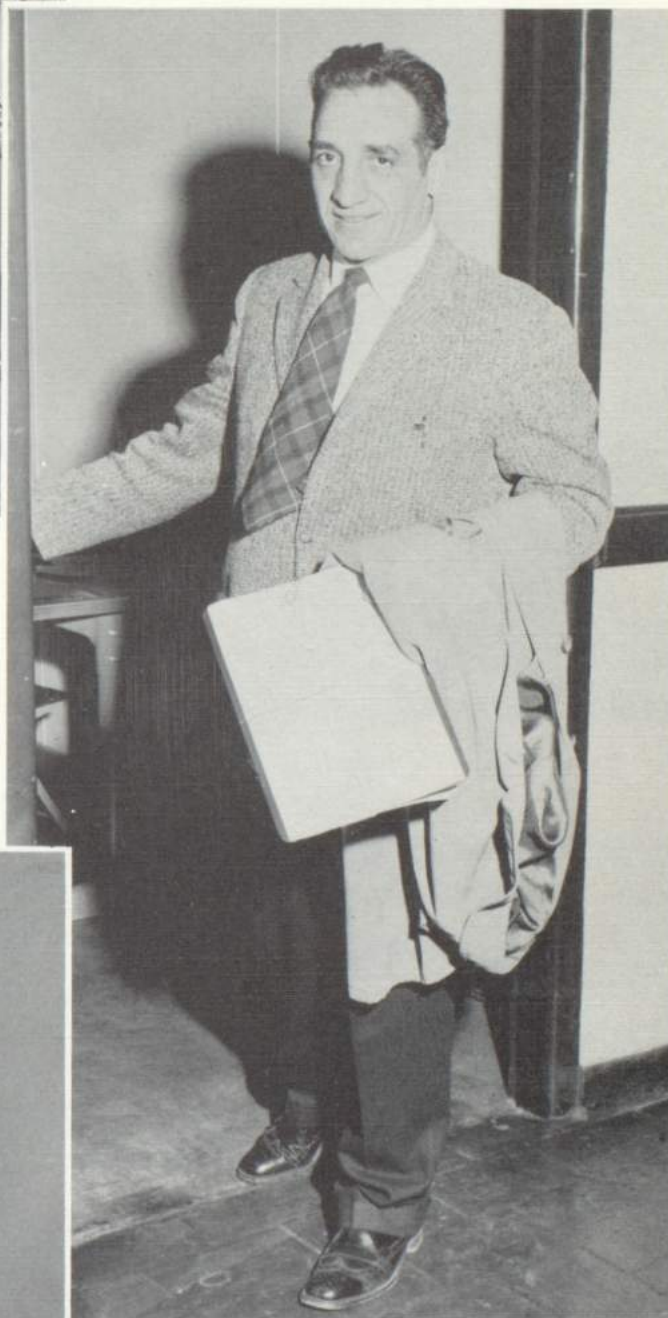

But man power is still needed for industry and brain power is still needed for continued cultural and social growth. In our life plan we need a little more faith and a little more idealism. This, together with our struggle for more knowledge, will lead us to the rich future which lies ahead.

Juniors in Mrs. Woodard's Intermediate Algebra class learn that life is real and earnest.

No one at U-E typifies the Forward Look better than the Junior. All his hopes are toward the Future. From his ranks will come next year's student president, football, and basketball queens, officers in clubs and societies, award winners, athletic heroes, year-book editor—the list seems endless.

Gone are his carefree days as a Sophomore. Now he realizes that his every act has some bearing on his future. He must keep up his marks in order to make the honor society, achieve high honors at graduation, or get accepted in college. He must save his money, for senior and college expenses are ahead. The average Junior has a part time job, which means that he must learn to budget his time.

Juniors Patticia Cosey, Kenneth Coleman, Patricia Avery work in Mr. Thomas' Biology lab.

The Junior is an entirely different person from the one he was as a Sophomore. He no longer travels in a gang, but with a girl friend. He is clothes conscious and conforms to the current style trends. He longs for a car above all else and if he is lucky enough to possess one, uses great ingenuity in keeping it in running order. He is a worrier, beginning to be humble about his abilities, listening to Senior tales of college board exams and entrance requirements with dread and foreboding.

All in all, U-E Juniors are the backbone of U-E, earnest, hard working, serious. What would we do without them?

Jonathan Weld, Theron Perkins, Donald Graves, and James Benjamin design U-E's answer to Russia's Sputnik.

Happy Juniors study history in Room 114.

S o p h o m o r e s

What is a U-E Sophomore?

To himself he is the kingpin of the junior high, the conqueror seeking new conquests, the epitome of knowledge and sophistication.

To a U-E Senior he is a nonentity to be ignored.

To a U-E Junior he is the lowest form of U-E life, a fall guy, the butt of wrong directions and practical jokes.

To the Sophomore girl he is the familiarity that breeds contempt. She is aiming for more challenging conquests—a Junior or Senior boy, or the ultimate in feminine achievement—a Harpur student.

To his teachers he is an obstreperous child, a rough diamond in need of polish.

Some s

Gradually our Sophomore realizes that with additional freedom he has acquired additional responsibility, that teachers are not his natural enemy, that, as in junior high, good grades are the result of hard work, not luck. He becomes the most enthusiastic of U-E boosters and the most dependable, energetic worker in all school projects. He belongs and we love him. Long may he wave!

Although the young, inexperienced varsity had a disappointing season (only one win, over Elmira Southside), they received high praise from their opponents for their good sportsmanship and fighting hearts. U-E is proud of them.

Throughout the disheartening football season, the cheerleaders' devotion never faltered. By staging pep rallies, a parade, and bonfire, they stimulated U-E fans to one of the best attendance records in years. Last, but not least, U-E boosters are convinced that they are the prettiest cheerleaders in the Triple Cities.

Below, first row: Karl Hills, Patrick Palazzo, Adrian Menichetti, Jack Goodfellow, Charles Parkhurst. *Second row:* Anthony Ciciarelli, Donald McPherson, James Fitzpatrick, Thomas Linko, Alan McLain. *Absent:* Anthony Cerasaro.

"Barney" Goodfellow's short but hustling crew has achieved a 3-4 record which obscures the facts that all U-E opponents faced an excellent defense, and that no game was lost by over six points. With half of the season yet to go, it seems probable that the final outcome of the schedule will read more favorably.

The Key Club's Basketball Band runs through a number at half-time to the delight of the cheerleaders and fans.

Golf Team

Seated: Coach Nicholas DiNunzio, Jack Breno, Edward Eckert, Robert Dinga. *Standing:* Mark Sheiman, Ronald Demkovich, Thomas Nestor.

A THOUGHT
FOR THE . . .
CLASS OF '58

New graduates, trained to think—eager with new ideas, you are indeed the wealth of the nation in its richest form. Businesses and professions will profit immeasurably from the fresh thought and youthful energy you will bring to them.

This is an appropriate time when every young man and woman might well stop to think, "Now is the moment to be aware of what America is and what it means to live here."

This is the time for us to reaffirm our enduring faith in the free spirit, free life and free enterprise that are America. It is time for us to be grateful for the right to call our own the proud banner that ever has been, and is today, a rallying symbol for free men.

Congratulations to You!

SERVING BUSINESS
IS
OUR BUSINESS

For more than forty years, a parade of constantly improved business machines has spread from the Southern Tier to every corner of the earth. More than a thousand different models, from time stamps to the newest electronic data processing machines, are produced here. Development and application of these products have paced business growth and met the increasing need for handling the vast amount of information required by modern management. All our developments are in the interests of better service, for service is itself an IBM product.
