A scenic view of a lake framed by large trees, with a grassy slope in the foreground. The text is overlaid on the lower left portion of the image.

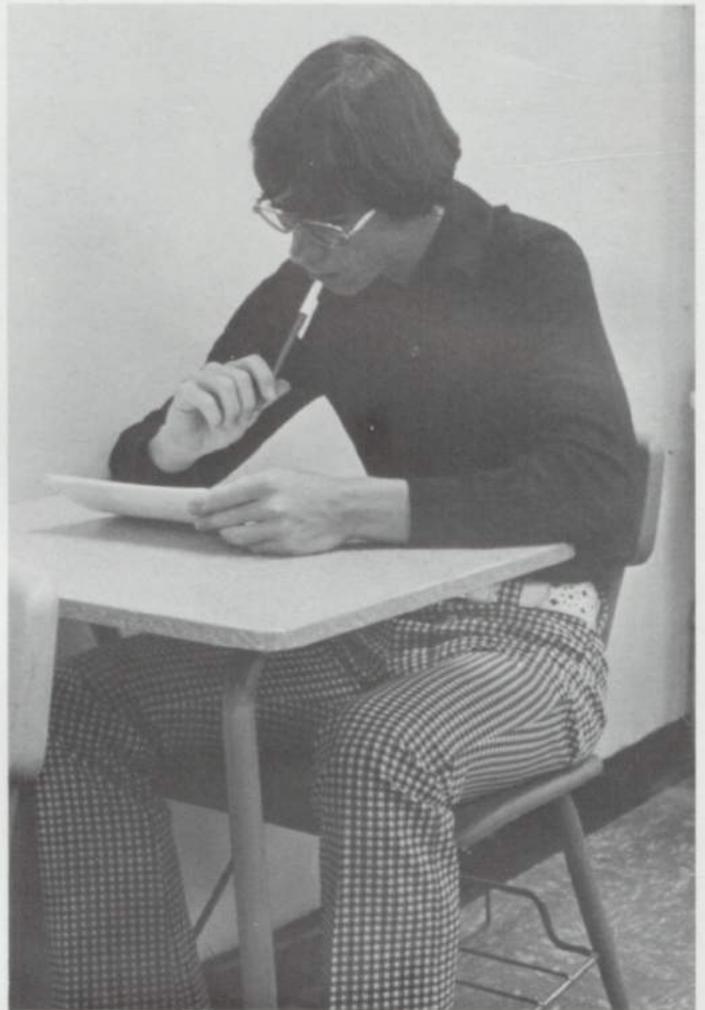

When the cares of life o'er take us,  
Mingling fast our locks with gray  
Should our dearest hopes betray us,  
False Fortune fade away,  
Still we banish care and sadness  
As we turn our memories back,  
And recall those days of gladness  
"Neath the Orange and the Black."

*One phase of life completed . . .*

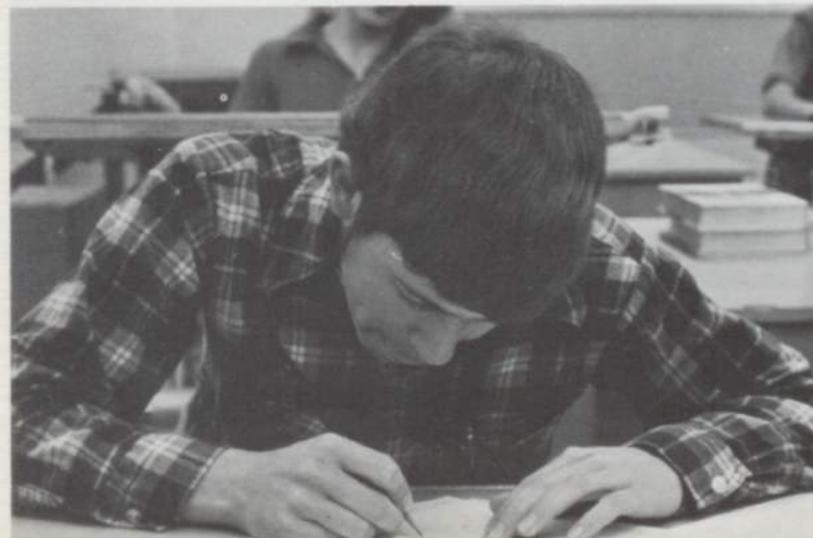

With the end of a most memorable phase of life comes the beginning of another. We have established basic ideas, philosophies, outlooks on life. Now, as we build upon these fundamentals we must take on a task far exceeding many others we will ever perform during our lifetime. It is our duty to carry this knowledge on to the future, walking in stride all paths of a so carefully erected democracy and moving on in that so unknown direction, the great enigma of "time."

Norma Padula, Editor

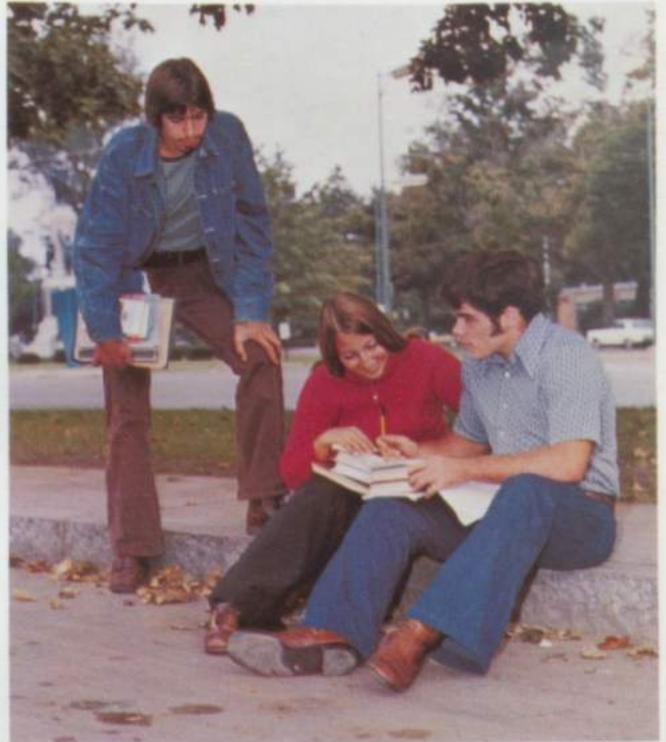

*another begun . . .*

We have spent the majority of our lifetime learning and now we must teach. Just as our knowledge was passed down to us, we too will pass it on to others, as it grows richer and richer while the years progress.

# *The present will soon be past . . .*

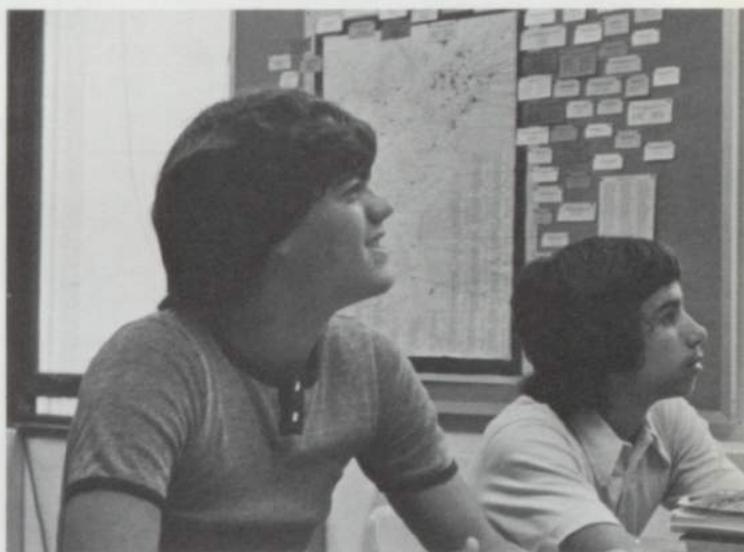

Friends are like flowers.  
They can brighten up even the dull-  
est of days.  
Pick them carefully, for there are  
many to choose from.  
Be gentle with them--help them grow.  
Remember, though, that once a flower  
dies, you'll never find another  
exactly like it . . . . .

*and the future will be ours.*

The future will soon fall into the hands of our generation. Let's make the best of it, for we are the ones who will lead the world. Granted, it is a great task, but one can find happiness in anything . . . . . only if he looks for it.

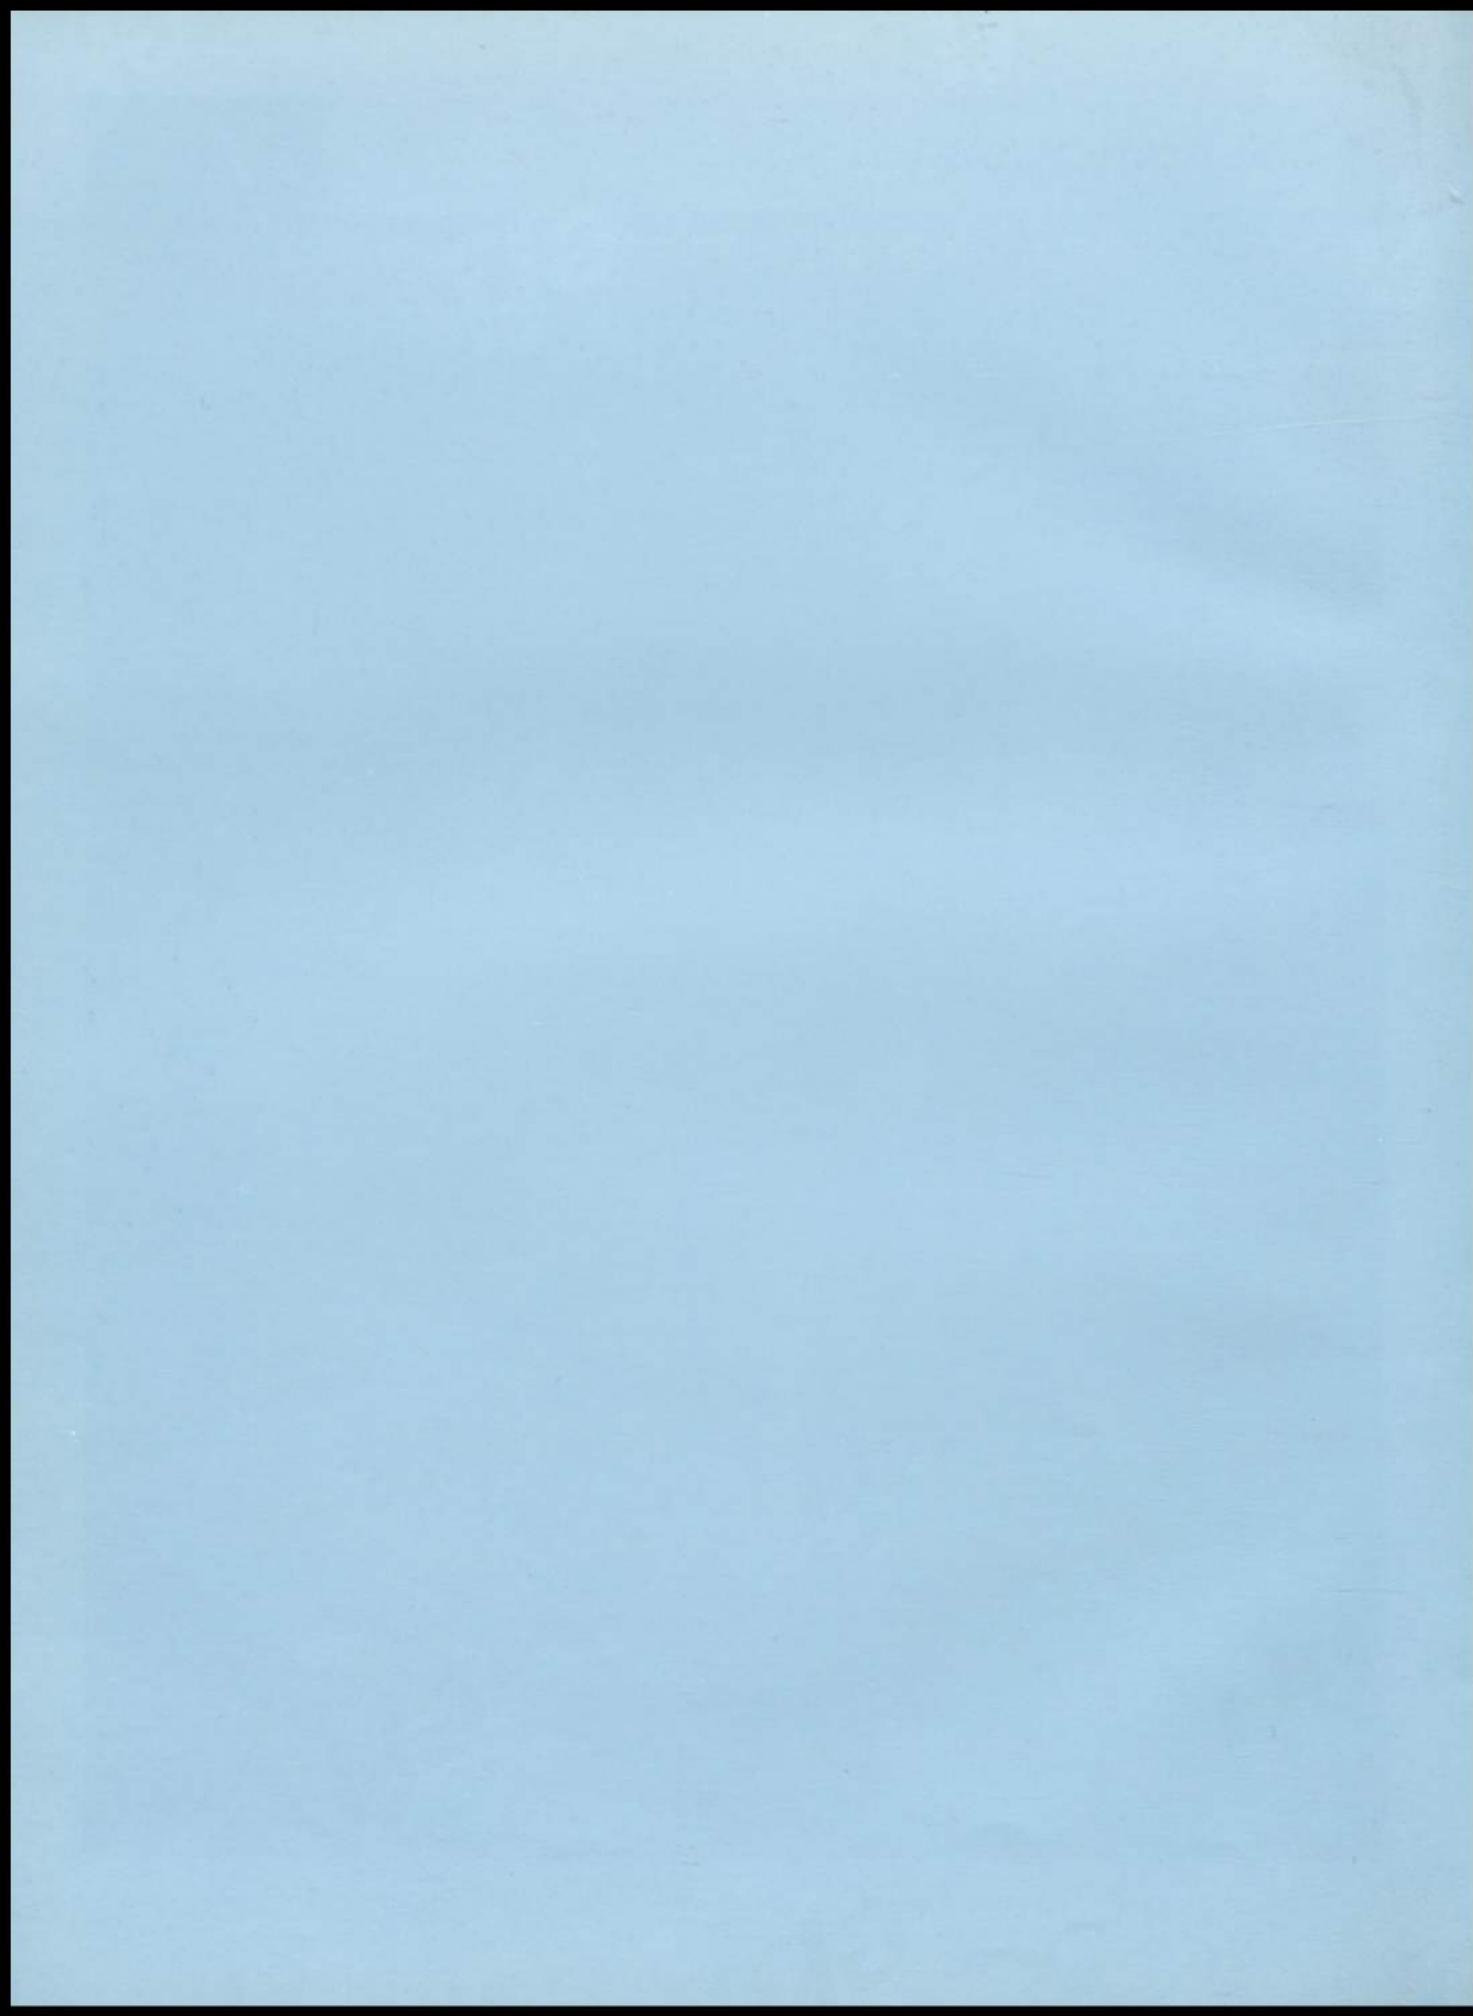

*Life is full of changes . . .*

"Change" has been the word at U.E. this year as the \$8.8 million renovation was put into full swing. The familiar scenes of contrasting old and new set the pace for the school year.
