SAMPLE PROBLEMS

The number 452 means $4 \cdot 10^2 + 5 \cdot 10^1 + 2$ if the number system base is 10. In the province of plus. The numbers are written in the base K. One of the seniors in their high school buys a car for 440 funny money units (FMU). Since he has lots of money (FMUS) he gives the seller a 1000 FMUS back in change. What is the base K?

Given the equation $a^2 - ka + (k^2 - 1)4 = 0$. Find the difference between the larger root and the smaller root.

HISTORY CLUB

The purpose of the History Club is to aid the school staff and local historical societies whenever needed and to provide a forum for outside of the classroom learning of history and social studies from time to time, but the main purpose is to organize and carry out a spring trip of historical and cultural significance. This year's trip will be to Boston and Sturbridge, Massachusetts. The main activities of the club will consist of fund raising drives. The major objectives on the trip are to visit attractions of historical significance, such as the U.S. Constitution, the Freedom Trail, the Kennedy Library, and the Museum of Science. They are also planning to spend a full day at Sturbridge Village.

The History Club consists of one hundred and fifty-five juniors and seniors under the supervision of Mr. Archer and the clubs officers: president, Shannon White; vice-president, Joan Slahuka; secretary, Maureen Cowell; and treasurer, Kathie Maltby.

WE DO IT ALL FOR YOU.

We do.

Every move we made towards the completion of this yearbook was done in total consideration of what you would have liked to see.

We heard you wanted a bigger book; so, we gave you 24 more pages than last year's 272. This presented a problem. We had to keep the price down. We sold advertisements in the yearbook to area merchants in order to be able to offer the same price as last year, $15, for a bigger *Thesaurus*.

Each picture on each page was picked from many similar pictures. About one of seven photos taken are picked. Also, how the page appears to the eye — layout — is governed by strict laws on the placement of copy, pictures, and headlines.

Most of all, this year we considered what you most wanted to see. We asked questions, and, when we got an answer, we acted on it. Through the year we've seen ideas drafted and many were thrown away. We consider this year's book an experiment of sorts. All the ideas that were fed to us we tried to use in an attempt to produce a *different* yearbook.

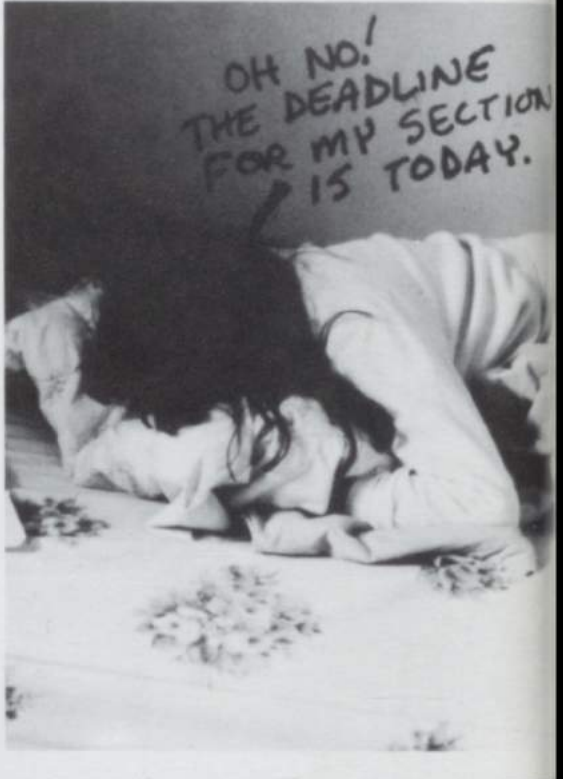

When we gave you your receipt in October, we were hired by each one of you to do what would be best for your money.

If we've done a good job, "Thanks" and "You're Welcome."

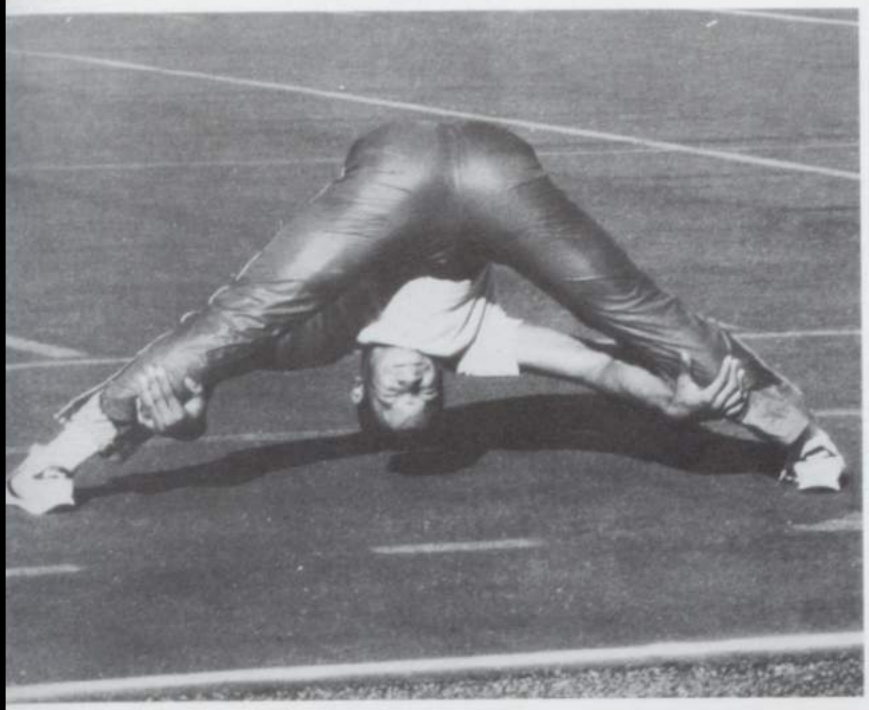

OH NO!
THE DEADLINE
FOR MY SECTION
IS TODAY.

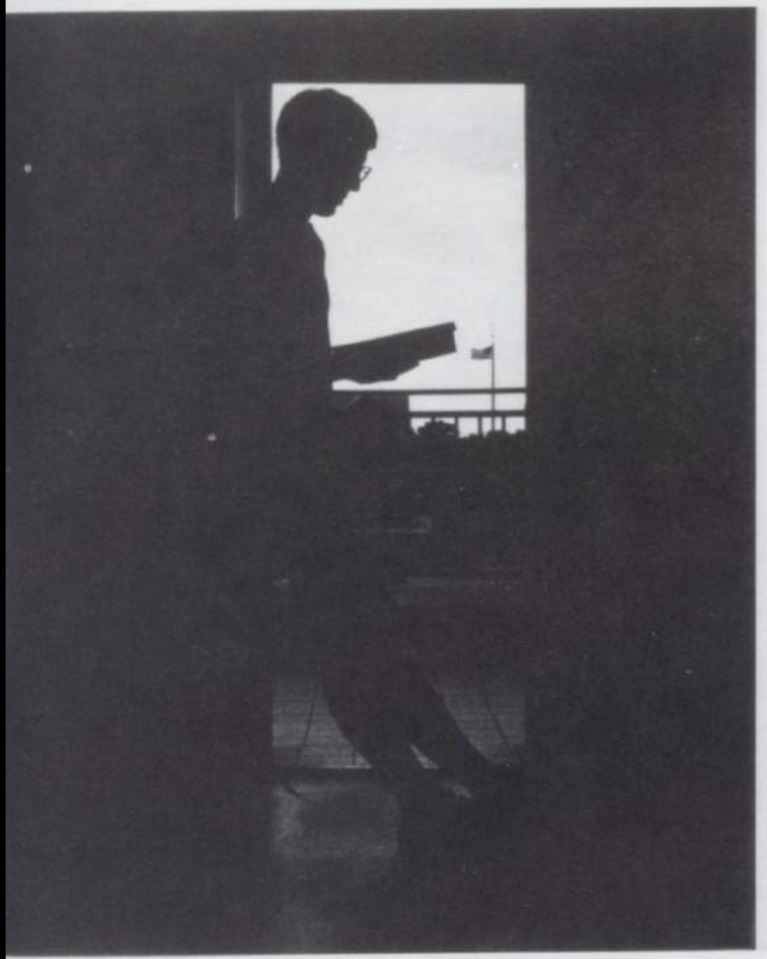

TWO STAFF PHOTOGRAPHERS WIN TOP HONORS

Every year Varden Studios sponsors a Yearbook Workshop for Editors and photographers. The school pays to send three Thesaurus staff members to this three day session of classes, lectures, presentations and *other* activities at the University of Rochester.

Over the three days, the photographers took thousands of pictures. At the end of the workshop they submitted what they thought were their best photos.

Chris Angulas entered these two in the contest and captured the trophy in the "Best Sports Action Photography" (top) and won the "Best Photograph Taken in the 1981 Workshop." This is the first time in the ten year history of the Workshop that a person has won two categories.

Also . . .

Bill Woods, a senior, submitted a close-up shot of a French horn to the Scholastic Art Contest. It won a Blue Ribbon and a Gold Key award in the Regional Art competition. It is now in New York in a national level competition.

HOMECOMING 1981

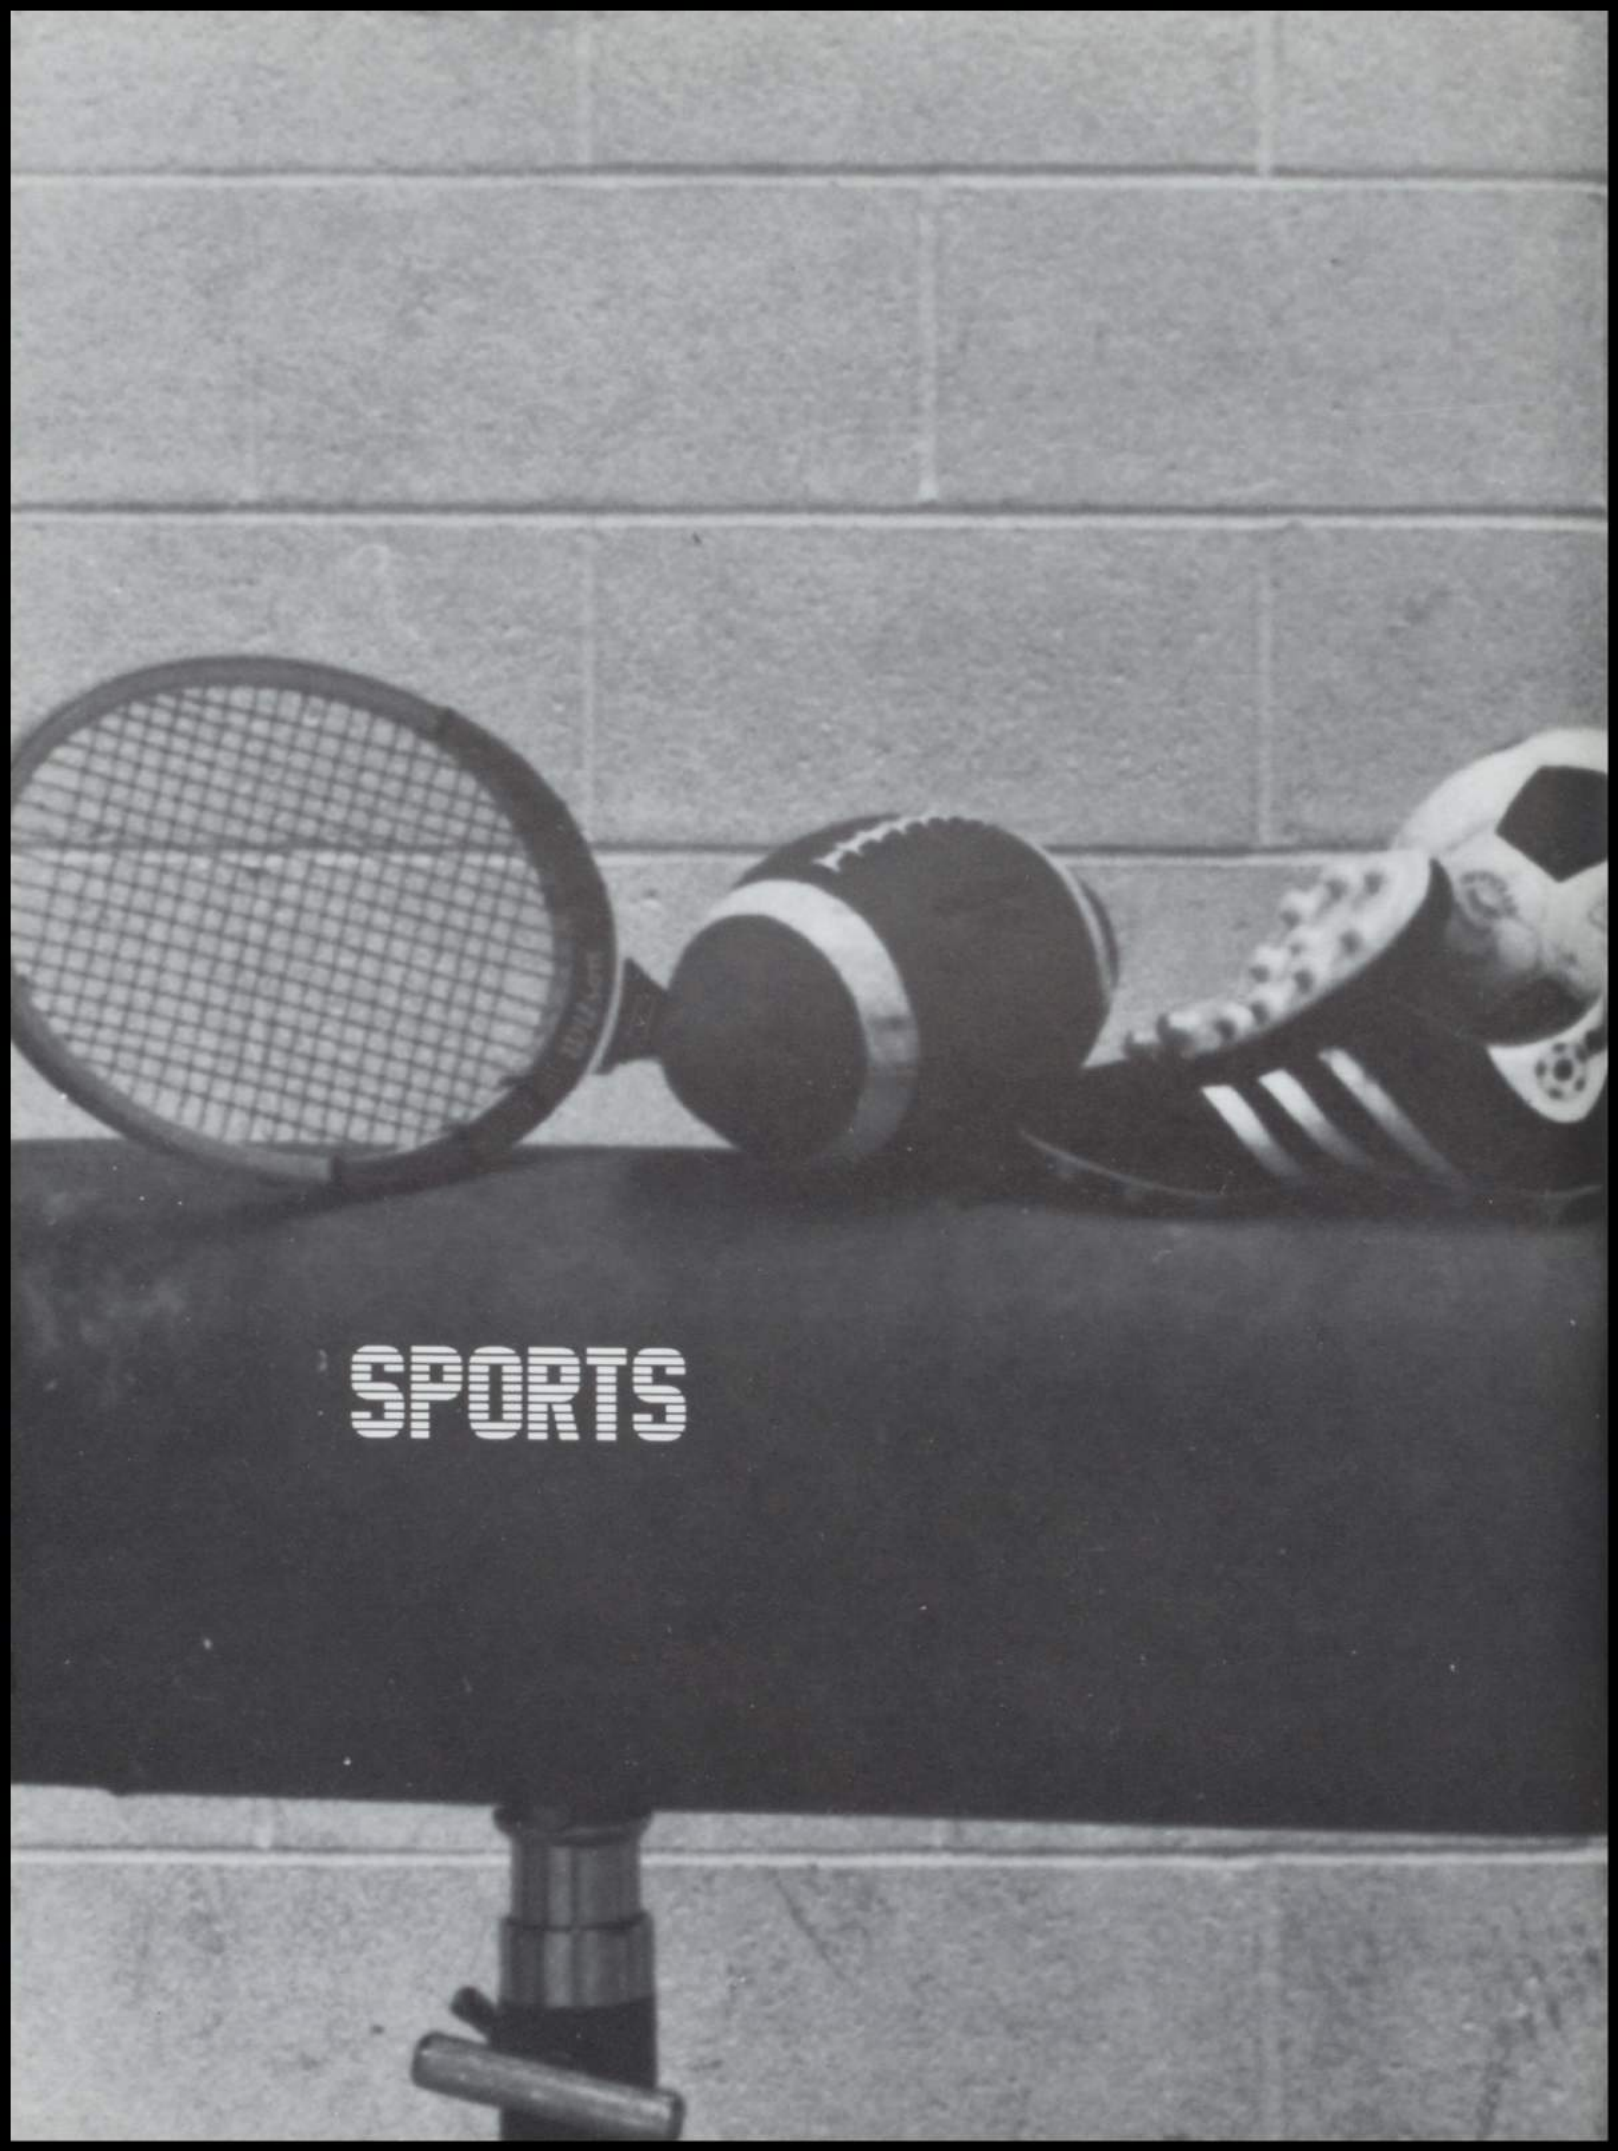

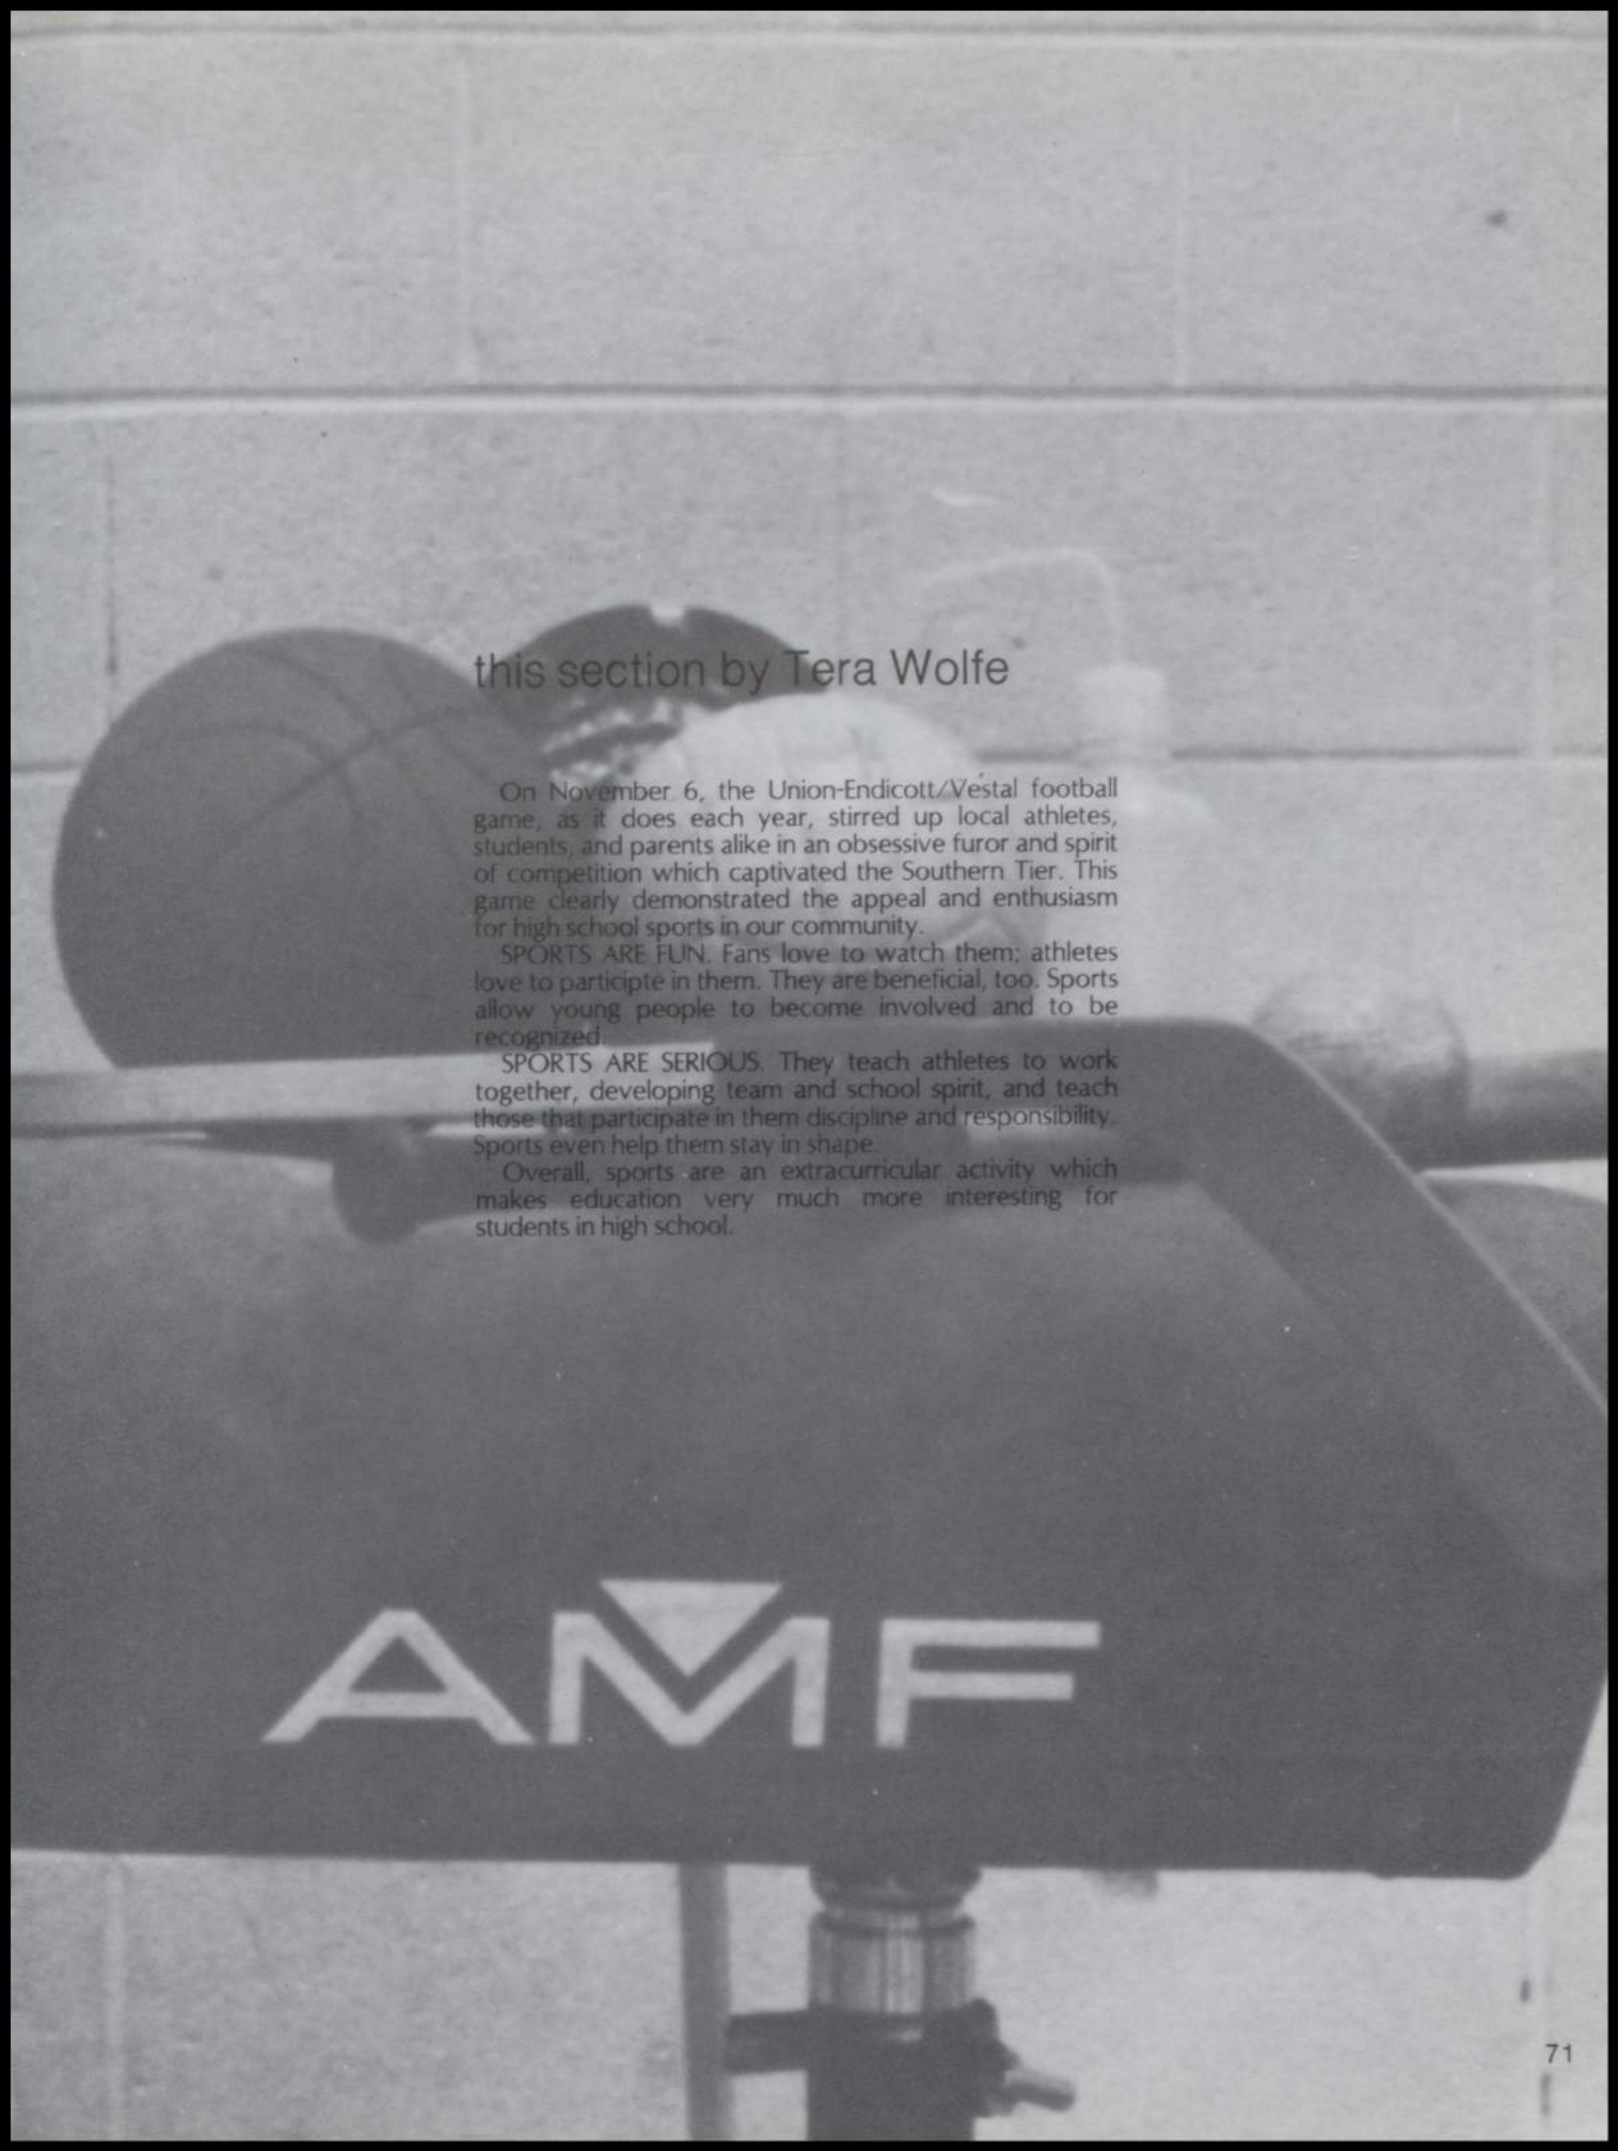

SPORTS

this section by Tera Wolfe

On November 6, the Union-Endicott/Vestal football game, as it does each year, stirred up local athletes, students, and parents alike in an obsessive furor and spirit of competition which captivated the Southern Tier. This game clearly demonstrated the appeal and enthusiasm for high school sports in our community.

SPORTS ARE FUN. Fans love to watch them; athletes love to participte in them. They are beneficial, too. Sports allow young people to become involved and to be recognized.

SPORTS ARE SERIOUS. They teach athletes to work together, developing team and school spirit, and teach those that participate in them discipline and responsibility. Sports even help them stay in shape.

Overall, sports are an extracurricular activity which makes education very much more interesting for students in high school.

"This team has to be ranked as one of the greatest "come from behind" teams of all time. The Tigers with a 1-1-1 slate after the first three weeks, due to a completely new league, no pre-season game and a few key early season injuries, improved to the tune of winning all the rest. In fact, the season ended with U.E. ranked tenth in the state. This is indeed a unique group of young men. The Seniors have worn the Orange and Black with DISTINCTION all over the state during the past few years, even at the CARRIER DOME at Syracuse University this year. They have performed against the VERY BEST, and they have always represented us in the most EXEMPLARY MANNER showing DIGNITY, HUMILITY, PRIDE and ACHIEVEMENT. We are extremely PROUD of them!"

"This year's team consisted of many veterans — Jodi Dinga and Larissa Bachura have been on the team for four years; Lynn Koban, Shannon White, Barb Dickson and Chris DePersis for three years. Our team has been second for the last four years, and it is a fitting ending for the seniors to finally have taken it to first place in our division this season."

STUDENT LIFE
(Nice Life)
GREEN

This is a new addition to the format of the UEHS Thesaurus. The staff thought that maybe the yearbooks of the past were a bit dry; they were filled with cold facts, old ideas, and not much emphasis was placed on students out of school.

This section was added, along with other changes to the yearbook, in order to spice up and change the direction of a previous one-track yearbook. It includes some of the images which seemed to be most common in the after-school life of UE students.

In 1982 Portable Stereos "ghetto blasters", "Brooklyn Briefcases", "Cahas", or just Boxes – were in everyone's hands or Sony Walkmans were strapped around their heads. Unfortunately it seemed that as soon as someone bought his "dream box", JVC, SONY, or PANASONIC came out with something new like a song scan or 2 short-wave radio band built in which made your new box absolute. Suddenly it was no longer the best and you had to either live with it or go out and buy another. This, along with blank tapes at four dollars apiece and six Energizers for nine dollars, made maintaining a box an expensive habit. But it seemed it was a habit teenagers could not do without.

To finance this habit, to help pay the high tuitions for college, and to pay for gas, hobbies and other entertainments, some kids took jobs at local businesses. The majority of the laborers worked in fast-food stores like McD's and Wendy's. Those in co-op programs worked at IBM the first or second half of the school day. Then there were those who did baby-sitting, mowed lawns, and lived off their parents.

In the contest for the title of appliance most used in a teenager's house, there is a tie for first between the Radio and the Phone. As long as there's someone home and the T.V.'s not on, the radio will almost always be blastin' away, turned to one of three stations WAAL, 3WT, or WMRV.

"Get off the phone, I gotta call someone!!" How many times did your siblings cut in on your conversation with this ineffective one-liner? The Phone (capitalized for personification) is used for a variety of reasons. On the telephone romances are gained or lost. Parties are contrived (we regret there are no party photos). Weekends are planned, gossip is spread, and homework is finished.

So, this is the new section in the yearbook. If you like it, we'll do it again next year. If you don't, we'll still do it, only better. Enjoy.

an hour, a day, a year, a second.
can I be so blind to let it
slip my senses, fool my heart?
have I lost a second? what a fool,
to have so much time to live . . .
ah, but there's where TIME and I
have struck the deal:
I let TIME pass, take my days and my sleep,
she'll have my life when she asks.
all this and I ask her to let me
remember; let me save some pieces
of the times I allow through.
let me have the memories of the days I've spent
here, among the ones I've come to love
as I do myself, the day's end.

MODERN
MARC

this section designed and executed by

John Hand

It is amazing how much difference there is between my school in Australia and UE. I think the most obvious difference is that we wear a uniform, and around here jeans seem to be the uniform. My school consisted of 700 female students and no males. This had its advantages and disadvantages; with no guys to impress we did not spend that much time on our physical appearance and acted stupid, but we had fun doing it. The disadvantages are a little more obvious and you can figure those out for yourself.

Our final year in High School is referred to as Matriculation. The year's work is geared towards the final examinations for each subject and all students must take five subjects and sit for a three hour exam in each subject. The exams count for 75% of your mark and your year's work for only 25%; therefore, most of the emphasis is placed on your final exam.

In many Australian schools they have a prefect system. This consists of up to 20 Senior Students who have a variety of duties. They must see to the general appearance of a student both in and out of school and stop bad behavior. The prefects are given many privileges. They are voted in by the students and to be chosen as one is a great honour.

There are just a few examples of the vast differences between two countries that are so similar.

– thanks go to Melissa Chapman
for this last minute article. She's
an exchange student from
Adelaide, Australia.

ROTARY

ANGELICA BERMUDEZ is a Rotary Exchange student from Curnabaca, Mexico. She arrived in the United States on August 16, 1981, and will remain here until July, 1982. She has lived with the Strausses, Dalebouts, and Peakes.

"I want to study language at the University of Mexico, in order to meet people and acquire knowledge of other customs, and make friends in all countries. I like to ski, as I have never had the opportunity in Mexico because of our warm climate. Meeting people is also important as it increases one's knowledge. I hope to come back to the United States some day, and learn more about it."

MELISSA CHAPMAN is a Rotary Exchange student from Adelaide, Australia. She arrived in the United States on January 17, 1982, and will remain here until December 1982. She is presently living with the Browns, and has plans to live with the Hands and DeSanctises.

"I am very interested in sports, and I want to try out for the Girls softball team. If I don't make the softball team, I would like to try out for the track team. I especially enjoy meeting people, and doing things with them. I feel very fulfilled when I am active, and on the go. I enjoy cooking. My specialty is pineapple and ham pizza. Probably one of my biggest weaknesses is cleaning up my room. I am really looking forward to a successful year in the United States."

UE's very own "Odd Couple"

Mr. Sorochinsky's predilection for food is no secret. What may not be so well known, however, is that frustrating him in his favorite pastime could create a rather dangerous situation. Let me explain.

Sarge and I had gone on one of our numerous trout fishing expeditions to the Adirondack Mountains and spent the night sleeping in his van. We were parked about a half mile from the stream on a little dirt road which ran through a thickly wooded area. I had fished there many times before and knew the torturous way through the woods to the stream. Mr. Sorochinsky, who was a novice when it came to fishing anything but carp in the Susquehanna river, was at a loss as to the direction of the stream; hence, he was compelled to follow me. We had left the van around five in the morning, without any breakfast. His suggestion was that we return to town, have a dozen fried eggs and pancakes, and then go fishing. I convinced him that the early morning was the best time to catch trout; though he was considerably chagrined, against his better judgement he complied to my wishes.

Getting to the stream was no small matter. The undergrowth was thick and snarled. Sarge kept complaining that I was making the bushes snap in his face; I suggested he remain farther behind, which immediately resolved the problem. In about twenty minutes, I finally broke through to the clearing on the river bank. I looked behind me but could not see Mr. Sorochinsky yet, though I could see the consecutive parting of the bushes as they gave way to his forward and sideward plunging tactics. Soon, he stumbled into the clearing in a shower of leaves and broken twigs. Whether it was the brisk morning air or the strenuous physical exercise we had just experienced, or both, I must admit that our appetites had become considerably whetted. With heavy panting, my companion growled, "I'm hungry!" I pretended to not hear the remark, and he, fearing that I might not have heard it, repeated it twice more, each time in a louder voice. I sensed that the topic of eating could become a problem; in the most calming tone I could muster, I assured him that we could return soon — after we had fished a while. I repeated that this was the time to catch trout — beautiful trout that would make a most welcome and tasty meal later. I didn't quite catch his words, but he did seem to calm down somewhat, and proceeded to follow me into the stream. He fished on the bank side, and I crossed the stream.

Fate was with us, for we were both catching fish. I was bringing in trout, and he, for some ungodly reason, kept bringing in large river chubs. I had a difficult time explaining to him that those silvery fish he was proudly accumulating in his creel were not considered edible and should be discarded. The mere mention of the word "edible" triggered an ancient response in his stomach, for he bellowed that it was time for breakfast, and lunch. I looked at my watch and saw that it was nine-thirty. I looked at Sarge and saw near-hysteria in his eyes. Indeed, he now had a pallid look about him. More important, his lower jaw was set in a menacing, belligerent, and bellicose manner. My companion looked dangerous. Pristine instinct told me no words could alleviate what I saw in my companion's face. His not too subtle reference to my ancestry and all people of a particular European race convinced me to dismantle my fly rod and head for the path back to the van. Had he known the way back, I'm sure he would have been long gone.

We stopped at a small grocery store in the little tourist town of Wilmington to buy food. Sarge selected two huge frozen sirloin steaks, a pound of butter, stacks of cakes, boxes of crackers, two loaves of bread, two pounds of bacon, soft drinks, aluminum foil, charcoal, and sundry other items necessary to feed a small troop of men. We then drove to the state park situated about five miles from Wilmington, and pulled up to one of several outdoor cooking places commonly found in state parks.

By the time I had my shoes on, Sarge had a raging fire burning in the stove. I suggested we wait until the fire settled down before he put the steaks on the now flame-obscured grill. Needless to say, my suggestion was not well-taken. The chef then attempted to wrap a strip of bacon around each of the dozen or more trout I had caught but soon had to give up the remarkable idea because the trout had a tendency to slip out of the bacon before he could get the fish fully wrapped. Mr. Sorochinsky is not very easily stymied, however. He threw fish and bacon into one lump in a sheet of foil and placed the silvery package on the fire next to the steaks. Within five minutes, the steaks took on a black burnt-wood appearance. Without further adieu, Escoffier Sorochinsky, removed the steaks and trout from the raging inferno. He then placed a steak and several trout (with quantities of bacon, of course), in a paper plate and handed the dish to me. Overwhelmed by his act of thoughtfulness and sacrifice, I began eating. Sarge did too. However, I had difficulty trying to cut through the still frozen steak. Mr. Sorochinsky had no such trouble. He ate his, and mine, and most of the trout. My voiced displeasure at the condition of the food brought a muffled response from his puffed cheeks: "Tomorrow, you cook."

Vito N. Popelka
1921-1981

Vita N. Popelka, Director of Secondary Education in the Union-Endicott Central School District, died suddenly on December 8, 1981.

Mr. Popelka, born in Czechoslovakia, grew up on the north side of Endicott. He attended George W. Johnson Elementary School, Henry B. Endicott Junior High School, and was graduated from Union-Endicott High School in 1940.

A local football hero, Mr. Popelka received a scholarship to the University of Notre Dame. Here he received his Bachelor's degree and was graduated Cum Laude in 1950. Mr. Popelka continued his post graduate work at Columbia University, Syracuse University, and Cornell University.

After completing his studies, Mr. Popelka returned to Endicott to begin his career as an Educator. He began in 1950 as a Library Monitor and Health I teacher at Union-Endicott High School. Mr. Popelka was a guidance counselor at the high school from 1959 to 1965 when he became director of guidance. From this position he advanced to Assistant Principal for the 1968-69 school year, and he served as principal of the Union-Endicott High School from 1969-1979.

In the years from 1971-1979 when Union-Endicott High School was undergoing renovation and expansion, Mr. Popelka did an outstanding job in re-locating both students and classes. He met daily with architects, organizers, and builders to solve the problems that arose. When problems were brought to his attention, he would simply reply, "No Problem," and then devote his full attention to resolving the difficulties. His slogan soon became, "No Problem".

In October of 1976, Mr. Popelka became the Director of Secondary Education of the Union-Endicott High School, a position which he held until the time of his death late last year.

". . . I considered him (Mr. Popelka) not only a strong professional assistant but also a close personal friend. I will miss him both professionally and personally."

Dr. Zimmerman

"Working with Mr. Popelka for fifteen years was a gratifying experience. (He was) A sensitive, caring person who tried to accommodate students and faculty in everyway, he left an enviable record in Endicott.
